Building a data-driven culture for leaders

Agenda	Objectives
Introduction	**By the end of this session, participants will be able to:**
Step 1: Identify need for support • Composite-level analysis • Measure-level analysis	• Review key data and reports that drive decision-making and levers for impacting student achievement.
Step 2: Validate need for support	• Identify strategic systems-level decisions that will support teachers and students in meeting school-wide goals.
Step 3: Plan and implement support • Root cause analysis • SMART goals	• Work collaboratively to create an actionable school-wide plan.
Step 4: Evaluate and modify support	
Step 5: Review outcomes	
Action plan
