Welcome!

Dear Teacher,

Welcome to the *Grade 2 Assessment and Remediation Guide*. While there are many competencies required to be a successful reader able to comprehend, analyze, and synthesize what one reads, one of the key prerequisite components is the ability to automatically apply knowledge of the English letter-sound correspondences when reading unfamiliar text. You will find resources in this Guide to help you provide additional instruction and remediation to students who enter Grade 2 with gaps in their code knowledge and fluency.

This Guide is not intended for use with students who are significantly below grade level. Students in this category will need intensive individualized instruction during their entire language arts period to bring them up to grade level. The Guide is intended for use with students who have mastered some or most of the letter-sound correspondences in the English language, but who are not yet fluent readers because they lack specific decoding skills and/or have not had sufficient practice in reading decodable text.

Assessment is a prerequisite first step to helping struggling readers. It is particularly important that you have a broad overview of each student's strengths and weaknesses at the very beginning of the year—or whenever a new student enters your classroom—so that you can make the best use of instructional time. Placement Assessments and guidelines are included in the Grade 2, Unit 1 teacher and student materials for this purpose. For your convenience, they are also reproduced in this Guide.

In addition, assessments are provided at the end of each section of this Guide. You may use these assessments as both pretests and post-tests for each section. While you may sometimes choose not to administer a pretest, for example, if you have already identified a specific code knowledge gap through use of the Placement Assessments at the beginning of the year, it is strongly recommended that you always administer a post-test following any remedial instruction to document student progress—or lack thereof.

While poor code knowledge is often at the root of many reading problems, it is important to note that some students may experience reading difficulty for other reasons. For example, students for whom English is a second language may have mastered the requisite decoding skills, but may not have a sufficient understanding of the meaning of English words to make sense of what they read. Problems of this nature will need to be addressed by means other than this *Assessment and Remediation Guide*.

Overview

How to Use this Guide

At the beginning of the school year

It is highly recommended that teachers administer the Grade 2 Placement Assessments to all students during the first weeks of school. Detailed explanations as to administration and analysis of these Assessment results are provided in the Unit 1 Teacher Guide.

Pay particular attention to students who may be new to your school this year and/or students whom the Grade 1 teachers may have indicated struggled in Grade 1.

Once all students have been assessed, you may want to identify groups of students within your class who have similar code knowledge gaps. After you have identified these groups and their respective needs, refer to the Table of Contents of this Guide to identify those specific sections of the Guide that target the same letter-sounds correspondences for which your students need additional instruction and practice.

The remedial materials in this Guide will be most effective when used either one-on-one or in small group settings with explicit instruction provided by the teacher or an assistant teacher. During any remediation activity, it is important that students have many opportunities to practice reading words with the targeted skill correctly. Practice reading should be done orally so that the teacher can immediately correct any and all errors.

The lessons in this Guide build incrementally, meaning that mastery of the skills taught in earlier lessons is assumed and therefore a prerequisite for success in future lessons. Said another way, while it is possible to isolate and target a specific skill, such as the decoding of words with r-controlled vowels, and provide instruction using only those specific pages from this Guide, you will find other words included on these pages that were presented and reviewed in earlier pages of this Guide.

Therefore, use the sequence of skill instruction as presented in the Table of Contents as the order in which specific gaps should be addressed for students who have multiple gaps.

The materials in this Guide also address a separate category of words designated here as High-Frequency Words. In CKLA Grades K–2, these words were called Tricky Words. Tricky Word instruction is integrated into skills instruction across all three of these early grade levels as needed in order for students to read stories independently in their student Readers.

These words were designated as Tricky Words relative to the specific code knowledge that had been explicitly taught to students at that time. For example, the words *me*, *he*, and *she* were initially taught as Tricky Words in Kindergarten because students had not yet studied the spelling of the /ee/ sound with the letter ‘e’; at that time, students had learned only to associate the /e/ sound with the letter ‘e’. The words were taught by pointing out that students could sound out the initial consonants of each of these words because they had learned those letter-sound spellings, but that the ‘e’ was “tricky.” When students moved into later grades and explicitly learned that the ‘e’ could represent the /ee/ sound in certain circumstances, the words were no longer treated as Tricky Words.

During the school year if new students enter your classroom

It is highly recommended that you administer the Grade 2 Placement Assessments any time during the year that a new student enters your class, in addition to asking the student to read orally from the present Reader you are using with your class. This is the most efficient way to get a quick overview of the new student’s word attack skills. This Guide may then be used if needed to bring new students up to speed with the rest of the class.

Throughout the school year with any student in your classroom

It is possible that a student who appears to perform satisfactorily on the Unit 1 Placement Assessments may begin to exhibit reading difficulties later in the year after being placed in the Grade 2 materials. The Unit 1 materials were deliberately created to provide a gentle reintroduction to reading at the beginning of the school year. You may find that some students who read the Unit 1 *The Cat Bandit* Reader with no or minimal difficulty experience some problems when presented with the subsequent Grade 2 Readers, which are more challenging in terms of content, vocabulary, and the frequency of multi-syllable words.

Careful observation of each student's daily classroom performance in reading orally, responding to comprehension questions, and/or completing worksheets may suggest general weaknesses. The additional assessment material in this Guide should then be used to identify specific weaknesses, as well as provide specific remediation.

Students who have not mastered earlier skills will face increasing challenges with each new lesson if extra help is not provided immediately. Teachers should take advantage of the day-to-day opportunities to monitor individual student progress and should offer targeted remediation as quickly as possible.

Guide Organization

Immediately following this overview, there are additional resources that will enable teachers to use the remedial materials in this Guide more effectively. A description of the Basic and Advanced Code taught to students using CKLA materials in grades K–1 will provide insight and context for the Grade 2 teacher as to how phonics skills were taught in the K–1 CKLA materials. We have also included a copy of the student Individual Code Chart that summarizes all the letter-sound correspondences taught in CKLA. We strongly recommend that you review this chart carefully to get a sense of the letter-sound correspondences taught in CKLA.

This is followed by an explanation of types of syllables with guidance on how to chunk multi-syllable words into smaller parts in order to assist students in decoding longer words.

Next is a section on assessment. It includes copies of the Grade 2 Placement Assessments with direction for administration and analysis. Guidelines for assessing reading fluency are also included.

(Keep in mind that every section of remedial materials within the Guide also includes specific assessments of the targeted letter-sound correspondences in that section.)

Finally we have included a number of game board templates and directions that can be used to provide additional practice in reading words with any letter-sound correspondences.

The remaining materials in the Guide are organized by skill and letter-sound correspondence. Within each section, you will find the following:

Lesson Templates: Each lesson template models the sequence of instructional steps to be followed when reteaching the particular skill(s) included in that section.

Word Lists: Lists of individual words with the specific letter-sound correspondences are provided. These words may be used in teaching a lesson as described in the template. Students may also be asked to simply read the word list aloud for practice and to orally use each word in a sentence. You may also use the list for dictation. Finally, the list can serve as a teacher resource when you are creating word cards for students to use with the various game templates.

Worksheets: Students may be asked to complete these worksheets with guided instruction for practice or they may be asked to complete the worksheets independently as an informal assessment.

Practice Sentences and Stories for Oral Reading: These short sentences and stories offer students practice at the next level of difficulty beyond simply reading lists of individual words and completing worksheets.

Games: In some sections, additional game boards for practicing specific skills are included.

Assessment: An assessment of each skill taught in the section is also included for use following instructional remediation to determine whether students have, in fact, now mastered the skill that was taught. Two versions of each section assessment are included—one evaluates students' ability to read words with the target letter-sound correspondences and must be administered individually. The other assessment is a spelling assessment of the same letter-sound correspondences. Keep in mind that ability to spell words correctly usually lags behind the ability to read the words accurately.

Students who perform well on both versions of the Assessment have clearly learned the targeted letter-sound correspondences and are ready to move on. Students who perform poorly on both clearly need additional intervention. Students who perform adequately on the reading version, but not as well on the spelling version are ready to move on in reading, but will benefit from additional writing and spelling opportunities. These students should especially be encouraged to use the Individual Code Chart when writing.

The materials and pages for teaching the specific letter-sound correspondences in each section are generally, but not completely, arranged in the sequence in which they should be used. Here is a typical instructional sequence for remediating any letter-sound correspondence:

Pre-test using section Assessment (optional)	↴
Teach lesson(s) using Word Lists; have students read Word List pages	↴
Provide practice with worksheets. Some worksheets may be done with teacher guidance; others, particularly towards the end of the worksheets, should be completed independently by students	↴
Ask students to read aloud the Practice Sentences and Stories	↴
Provide additional practice with Games	↴
Post-test using section Assessment of targeted letter-sound correspondences	↴
Give section Fluency Assessment (starting with Section III)	↴

The Basic and Advanced Code

Understanding How Phonics is Taught in CKLA

The Core Knowledge Language Arts (CKLA) program teaches the highly complex letter-sound correspondences of the English language in an explicit and systematic manner in Kindergarten–Grade 2. Students are taught how the 26 letters (or graphemes) of the alphabet are used in various combinations to represent 44 sounds (or phonemes). There are approximately 150 different spellings for these sounds.

Students are first taught the **Basic Code** for each of the 44 phonemes. The Basic Code spelling for a sound is usually the most common, or the least ambiguous, spelling for a sound. By learning these letter-sound correspondences first, students experience a high degree of predictability, and therefore success, in decoding words with these spellings.

Basic Code spellings may be single letters, such as these spellings and sounds: ‘a’ > /a/, ‘e’ > /e/, ‘b’ > /b/, ‘m’ > /m/. Basic Code spellings may also include digraphs or two letters to represent a sound, such as ‘ee’ > /ee/, ‘oy’ > /oi/, ‘ou’ > /ow/, ‘sh’ > /sh/, ‘th’ > /th/. Other Basic Code spellings include separated digraphs, such as ‘a_e’ > /ae/, ‘o_e’ > /oe/. The chart on the next page lists the Basic Code as taught in CKLA.

In a **Basic Code Lesson**, students first learn to listen for and isolate a single sound and are then taught the spelling for that sound. Typically in this type of lesson, the teacher introduces the sound and conducts various oral language activities with students to be certain that they can identify the sound orally. The teacher then presents the spelling for that sound and models writing the spelling, as well as sounding out simple one-syllable words that use the spelling. Additional reading and writing practice opportunities for students then follow.

Section 1 of this Guide includes a template for a Basic Code Lesson, as well as needed Word Lists and practice materials. In addition, Basic Code Lesson templates are also found on the following pages of this Guide: 155, 205, 211, 301, 475, and 509.

The **Advanced Code** consists of all other spelling alternatives (over 100) that may be used to spell the 44 phonemes in English. Examples of alternative spellings include ‘mm’ > /m/, ‘ss’ > /s/, ‘c’ > /s/, ‘g’ > /j/, ‘ay’ > /ae/, ‘ey’ > /ee/. Some of these spelling alternatives occur relatively frequently in the English language, while others are quite rare.

As each spelling alternative is taught in CKLA, the frequency with which students may expect the spelling to occur is communicated in several ways. A “power bar” on cards used to teach the spellings indicates how frequent or infrequent a spelling is. A long power bar indicates the spelling occurs frequently, while a short bar designates a rarer spelling.

The long power bar on the card below indicates that the ‘a’ spelling is used frequently to spell /a/, the short vowel sound:

The short power bar on this card signals that the ‘eigh’ spelling is used infrequently to spell /ae/.

The relative frequency of spellings for any given sound is also communicated in the student Individual Code Chart, a copy of which is included at the end of this section. In this chart, the spellings for a sound are arranged in order from most to least frequent.

Students are introduced to and practice the **Advanced Code** in two types of lessons, **Spelling Alternative Lessons** and **Tricky Spelling Lessons**. In a **Spelling Alternative Lesson**, the teacher first reviews the Basic Code spelling that students have already learned for a particular

sound. New words with different spellings for the same sound are then introduced. Students are then often asked to conduct word sorts as a way to reinforce the fact that the same sound may be spelled multiple ways. In Grades 1 and 2, teachers are also encouraged to display Spelling Trees in the classroom as yet another way to reinforce spelling alternatives. A given sound is listed on the tree trunk, with various branches standing for different spellings. Leaves with words exemplifying a spelling are placed on the appropriate branches.

The fact that there are so many spelling alternatives in the English language presents a challenge for students when they are asked to write (and spell) a word.

Spelling Alternative Lesson templates are included on the following pages of this Guide: 427, 627, 817, 993, and 1101.

Tricky Spelling Lessons are used to explicitly call students' attention to a spelling that can be pronounced and read more than one way. For example, 'a' can be pronounced as /a/ (*cat*), /ae/ (*paper*), /o/ (*father*) or /ə/ (*about*). It may be helpful to think of a tricky spelling as an instance in which several sounds "vie" for the student to pronounce and read the spelling a different way:

Tricky spellings present a challenge when students are asked to read unfamiliar words since it is possible to sound out and pronounce a tricky spelling multiple ways.

In a **Tricky Spelling Lesson**, the teacher calls explicit attention to many examples of words in which the same spelling is pronounced different ways. Students are taught to try each pronunciation that they have learned for a spelling until they recognize a particular pronunciation as a familiar word that makes sense in the context.

Tricky Spelling Lesson templates are included on the following pages of this Guide: 627, 817, 993, and 1101.

Using Chunking to Decode Multi-Syllable Words

Mastering the various letter-sound correspondences taught in CKLA will enable students to read one-syllable words with ease. However, knowing these individual letter-sound correspondences is no guarantee that students will be able to apply this knowledge in reading multi-syllable words. To this end, most students will benefit from additional instruction in learning to recognize, chunk, and read parts of words—syllables—as a way to decode longer words.

When students first encounter two-syllable words in Grade 1 materials, we insert a small dot as a visual prompt or cue between the syllables (e.g., *sun·set*). This is done in both the Workbooks and Readers. The dot is intended to visually break the word into two chunks, each of which can then be sounded out separately. As Grade 1 progresses, the dot is eliminated and students are expected to begin visually chunking parts of longer words on their own.

Starting in Grade 1, CKLA introduces the decoding of two-syllable words by having students work first with two-syllable compound words (e.g., *cat·fish*, *cup·cake*, *pea·nut*, *drive·way*). For compound words, we place the dot between the two component words. These are among the easiest two-syllable words to chunk and decode because each syllable of a compound word is already a familiar spelling pattern students have encountered in reading one-syllable words. In addition, each syllable or chunk is also frequently recognizable as a word part that has semantic familiarity.

In addition to learning to decode two-syllable compound words, Grade 1 students also tackle two-syllable words that consist of a root word with a simple suffix (e.g., *yawn·ing*, *hunt·er*, *punt·ed*). We typically place the dot immediately before the suffix. However, for words that contain double-letter spellings for consonants, in CKLA, we typically place the divider after the double-letter spelling rather than between the two consonants (e.g. *batt·ed*, *bigg·er*, *bunn·y*). Teachers familiar with other ways to chunk or divide syllables may initially find this odd. We do this, however, because the double-letter spellings have been taught as single-spelling units in CKLA since Kindergarten (‘nn’ > /n/, ‘mm’ > /m/, ‘tt’ > /t/, etc.) and we wish to be consistent in representing these spellings in the way that students have been taught to process them, i.e., as whole entities for a sound. (Ultimately as students become more proficient at decoding and chunking syllables through subsequent grade levels, it really does not matter whether they visually chunk and decode these words as *batt·ed* or *bat·ted*.) Most students find chunking and decoding these two-syllable words consisting of root words and suffixes relatively easy.

A greater challenge is encountered when chunking and decoding other types of multi-syllable words. To be successful in decoding these longer words, it is helpful if teachers and students recognize certain syllable types. Most reading specialists identify six different syllable types:

Note: Syllables exemplifying each type are underlined.

- **Closed Syllables (CVC, VC, CCVCC, etc.)—always associated with a “short” vowel sound, e.g., /a/, /e/, /i/, /o/, /u/:** let, pad, rod, tin, fun, pic·nic, un·til
- **Magic ‘E’ Syllables (V-C –E)—always associated with a “long” vowel sound, e.g., /ae/, /ee/, /ie/, /oe/, /ue/:** cake, home, like, mule, Pete, mis·take, stam·pede
- **Vowel Digraph Syllables:** joint, speak, proud, play, dis·may, be·low, coun·sel
- **R-Controlled Syllables:** art, curb, girl, fort, clerk, tur·nip, ar·tist, fe·ver
- **Open Syllables (V or CV)—always associated with a “long” vowel sound, e.g., /ae/, /ee/, /ie/, /oe/, /ue/:** go, me, hi, a·pron, fi·nal, com·pre·hend
- **Consonant –LE Syllables (C –LE):** sim·ple, puz·zle, raffle, ca·ble, ri·fle

In addition, in CKLA, we think it is also helpful to designate one additional syllable type:

- **Schwa Syllables:** ben·e·fit, app·e·tite, a·bout, hos·pit·al, e·mo·tion

Note: The consonant –LE syllable is also a schwa syllable, but we distinguish it separately because of the way this spelling is chunked when dividing words into syllables.

To be clear, in order to decode words, students do not need to identify syllables by these names. The names of the syllable types are provided here only to establish a common vocabulary for teachers as they use the CKLA materials. What is necessary, however, for students to become fluent readers of longer words in increasingly complex text is that they be able to visually parse certain spelling patterns as syllable chunks so they can quickly and easily decode each syllable.

The first type of two-syllable word pattern to which students are introduced is the closed syllable pattern in two-syllable words. These two-syllable words are also relatively easy for students to chunk and recognize as an example of the familiar CVC, VC, CCVCC, etc., spelling pattern they encountered in one-syllable words in Kindergarten.

We divide two closed syllables in a word as follows:

- When two different consonants stand between two vowels, we divide the syllables between the consonants, creating one or more closed syllables.

ad · mit

nap · kin

trum · pet

- For words that contain double-letter spellings for consonants, we typically place the divider after the double-letter spelling rather than between the consonants. As noted earlier, we do this because the double-letter spellings have been taught as single-spelling units in CKLA since Kindergarten ('nn' > /n/, 'mm' > /m/, 'tt' > /t/, etc.).

traff · ic

muff · in

happ · en

- When there are three consonants between two vowels, in general, we divide so the first consonant goes with the first vowel and the other two consonants with the second vowel.

mon · ster

con · tract

pil · grim

When students have difficulty reading a two-syllable word, you may find it useful to use your finger to cover the second syllable, revealing only the first syllable for them to read. Once students read the first syllable, the second syllable can be uncovered and read. If necessary, you can then model for students how to blend the two syllables aloud:

magnet

mag 

 *net*

magnet

In Grade 1, students encountered other two-syllable words with various combinations of the magic ‘E’ syllable, the vowel digraph syllable, the r-controlled vowel syllable, and the closed syllable.

- Chunking these syllable types follows the same patterns for division as noted above for closed syllables:

tar · get for · get es · cape ig · loo scoun · drel char · coal

In Grade 2, students are introduced to more challenging multi-syllable words.

Two-syllable words with only one consonant between the vowels are especially difficult to chunk because they may be divided either before or after the single consonant. Students are taught to use a flexible approach in chunking syllables with a single consonant between the vowels, trying each possibility when they encounter an unfamiliar word.

- When only one consonant stands between two vowels, we suggest first dividing the word in front of the consonant and sounding it out as an open syllable:

pu · pil

vi · rus

mo · ment

unit

u 

 *nit*

However, sometimes the word may divide after the consonant, creating a closed syllable. There is no definitive rule for when to divide before or after the consonant. Students will need to be flexible and try dividing and sounding the word each way—before and/or after the consonant—to determine whether they recognize a familiar word as they sound out each possibility. In order to recognize whether a word is familiar when sounded either way, the word must be one that the student has heard before, i.e., the word must be in the student’s oral vocabulary. Obviously, this will represent an additional challenge for students who have a limited vocabulary and/or for whom English is a second language.

- If the word divides after the consonant, a closed syllable is created:

cam · el

mel · on

pun · ish

lemon

lem 

 *on*

In Grade 2, students are also introduced to consonant –LE syllables. Chunking these words into syllables is fairly straightforward.

- When a word ends in consonant –LE, we divide in front of the consonant, creating a first syllable that may be open, closed, or even r-controlled, depending on the other spellings in the words:

ban · gle

twin · kle

sta · ble

cra · dle

tur · tle

simple

sim 

 *ple*

In the later part of Grade 2, students are introduced to syllables in which various spellings represent the schwa sound. English words with more than one syllable usually include a combination of stressed and unstressed syllables. When a syllable in a spoken word is unstressed or weakly stressed, its vowel sound is often reduced to a flat, rather nondescript vowel sound that linguists call a schwa. This happens in many English words. Spellings for the schwa sound include ‘a’, ‘e’, ‘al’, ‘il’, ‘el’ and ‘tion’. Chunking and decoding words that include the schwa sound can be quite challenging for many students.

- We divide syllables with a schwa sound in different ways, recognizing that the syllable with the schwa sound has a particular spelling:

a · bout de · pos · it med · al e · vil nick · el lo · tion

As noted earlier, the consonant –LE syllable is actually a schwa syllable, but we identify it separately because of the way this spelling is chunked when dividing words into syllables.

- Finally, looking ahead, while students encountered some simple root words and affixes in Grade 1, throughout the entire year of Grade 3 instruction, they study prefixes, suffixes, and root words in much greater depth and are taught to chunk syllables accordingly.

pre · tend non · sense tri · cycle re · peat self · ish sad · ness help · less

By combining the specific code knowledge of letter-sound spellings taught in Kindergarten through Grade 2, with the ability to chunk multi-syllable words into smaller decodable parts, students will have the tools they need to independently decode just about any word they encounter.

Grade 2 Placement Assessment

Teacher Materials

Placement Assessment

The primary focus of the Placement Assessments is to gauge students' reading abilities using the different level assessments provided for Silent Reading and the Word Reading in Isolation Assessments. **Taking this time to assess students is crucial in ensuring their success as readers this school year.** The assessments will help you determine which students have the knowledge and skills needed to profit from Grade 2 Skills instruction and which students need, instead, to be regrouped to an earlier point in the Skills program. The assessments can also provide information about which students are ready to read trade books independently. Details about how to interpret your students' scores for placement are provided on pages 64–74.

Scoring and Placement

There is information in the Scoring section about how to evaluate students' assessment performance. The Scoring section also tells you which students will take the next Silent Reading Assessment and the Word Reading in Isolation Assessment. Information is provided in the Placement section that will guide you in placing students in appropriate reading groups.

If the Placement Assessments indicate that a student is not ready for Grade 2 CKLA, it is imperative that the student be regrouped to get Skills instruction that matches his or her current reading ability and needs. There is a good spot in the CKLA materials for every reader (and for non-readers, as well), but the beginning of Grade 2 is not the place for students with very limited code knowledge and reading ability or for students who rely on picture clues, whole word recollection, and guessing instead of reading by blending.

Core Knowledge Language Arts K–1 Experience

To accurately place students in reading groups, it is helpful to have a basic overview of the K–1 CKLA program.

Students who did well in CKLA in Grade 1 should be ready for the Grade 2 sequence of instruction. In general, students who have completed and mastered CKLA Grade 1 material from Units 1–6 should have adequate preparation for the Grade 2 sequence of instruction. Those who have also completed and mastered Units 7 and 8 should have good to outstanding preparation for the Grade 2 sequence of instruction.

The following chart provides a broad overview of the phonics skills taught in Grades K–2. Note that each grade level provides for review of basic skills at the start of the year. This review should be adequate, for example, for students who may have learned phonics skills during Grade 1, but have forgotten some skills during the summer months due to lack of practice. The review in these early lessons will *not* be sufficient for those students who may not have been taught phonics skills in the early grades. These students will likely need to be regrouped to receive CKLA instruction at a level other than the Grade 2 sequence of instruction.

Silent Reading Assessment

The primary purpose of these assessments is to assess all students to determine placement and instruction in the appropriate level of CKLA materials. Starting today, students will read a story silently and then answer comprehension questions. The stories and questions are located in students' Workbooks and reprinted in this Guide on pages 75–92. Depending on the student, each assessment can take from 20 to 30 minutes to complete.

Students will turn in their completed Silent Reading Assessment to you. They should be scored as soon as possible to determine which students will continue with the next assessment. You will follow the same procedure for each story, i.e., students who successfully complete a Silent Reading Assessment will continue to read a new story and answer questions.

If/when students do not successfully complete a Silent Reading Assessment, you will give those students an individually administered Word Reading in Isolation Assessment in order to more accurately determine individual reading strengths and weaknesses for placement consideration. You will begin administering the Word Reading in Isolation Assessment to any students who do not successfully complete the Silent Reading Assessment, “Snacks,” immediately.

Silent Reading Assessment “Snacks”

The Silent Reading Assessment assesses the student's ability to read connected prose and answer simple multiple-choice questions. Each assessment consists of a story and eight multiple-choice questions. The questions are meant to be relatively easy. “Snacks” is 51 words long. It uses only one-syllable words and only a few of the most basic spellings, all of which are taught in Kindergarten.

- Have all students tear out “Snacks” on Worksheet 6.1 and the story comprehension page on Worksheet 6.2, or make copies of pages 75–78 of this Guide.
- Have students read the story to themselves and answer the multiple-choice questions on the accompanying page. Tell them they can and should look back at the story and use it to help them answer the questions. This is not a timed assessment. Allow enough time for students to answer the questions.

Scoring for “Snacks”

We recommend you score the “Snacks” Assessment as soon as students complete the assessment. Enter students’ scores on the Placement Planning Chart. Those students who were able to answer **five or more of the questions correctly** will take the “Prince Vincent” Assessment next. Students who answered **fewer than five correct** will take the Word Reading In Isolation Assessment next, which will help you determine placement for those students.

Silent Reading Assessment

“Prince Vincent”

- This assessment will be given to students who scored five or more correctly on “Snacks”. The story “Prince Vincent” is on Worksheet 7.1 and the story comprehension sheet is on Worksheet 7.2, or make copies of pages 79–82 of this Guide for each student. Today’s story has 174 words, which is longer than “Snacks.”
- Please follow the instructions previously provided on how to administer the Silent Reading Assessment.

- Enter students’ scores on the Placement Planning Chart. Those students who were able to answer five or more of the questions correctly should complete “The Beach.” Students who answered fewer than five correctly will take the Word Reading in Isolation Assessment to help you determine placement for those students.

Word Reading in Isolation Assessment

You will begin the Word Reading in Isolation Assessment with students who scored fewer than five correct on “Snacks.” This assessment will provide further information about where to place students. It will also help you pinpoint specific letter-sound correspondences the student does not know.

This is a single-word reading assessment that needs to be administered individually. It consists of 120 words that contain particular spellings. The words have been sequenced to reflect the order of instruction in the CKLA program: the first 15 words are CVC words students read in Units 3–5 of Kindergarten; the next 15 words contain consonant clusters and are similar to the words taught in Unit 6 of Kindergarten, and so on.

Assess one student at a time, asking him or her to bring the Word Reading Record Sheet (Worksheet 7.5) to the assessment area. You will use this sheet to record the student’s answers while the student reads the words located on pages 54–57 of this Guide.

You may place a marker under each row of words in order to eliminate student confusion when reading.

Ask the student to read the words aloud to you.

Place an ‘X’ on the record sheet next to any word the student gets wrong or fails to read. If you have time, write the word the student says instead so you can further analyze errors.

Do not coach or correct the student.

Have the student move to the next word if he/she cannot read it quickly.

If the student fails to read six words in a row and becomes frustrated, you may discontinue the assessment. **Exception:** If the student misses a run of six Tricky Words in lines 9–12, jump to line 13 to see if the student can read regular words.

“Sink or Float”

- This assessment will be given to students who scored five or more correctly on the “The Beach” story. “Sink or Float,” is on Worksheet 9.1 and the story comprehension questions are on Worksheet 9.2, or make a copy of pages 89–92 of this Guide for each student. This is the last story for the Silent Reading Assessment.

Word Reading in Isolation Assessment

- Continue assessing students who scored less than five correctly on “Snacks,” “Prince Vincent,” and “The Beach.” Priority should be placed on assessing the lowest performing students.
- When you have finished assessing your students, you can begin the process of placing your students into appropriate reading groups. Guidance on how to go about determining these groups for your students is provided at the end of this section.

However, you should continue to administer the Word Reading in Isolation Assessment until you have assessed all students who are in need of this assessment. Guidance for interpreting the various assessment results is provided at the end of this section.

Moving Forward with Unit 1 Lessons

We recognize that it will likely take some time for teachers to fully score, record, and analyze assessment data for all students. We have deliberately planned Unit 1 as a review of Grade 1 skills with no new Grade 2 skills introduced.

We provide guidance below for a thorough analysis of the assessment data; **you should complete this analysis for each student well before the end of Unit 1 instruction.** This analysis will inform decisions as to whether students are ready to continue with Grade 2, Unit 2 instruction or whether other instruction is needed to ensure mastery of skills taught in CKLA at the Grade 1 level. Students may lack these skills for a variety of reasons, including being new to CKLA, perhaps having used different approaches and/or instructional materials in previous grades, difficulty in thoroughly mastering these skills in spite of having participated in CKLA instruction, and so on. Whatever the reason, it is important to identify code knowledge gaps now and address them rather than simply push students ahead through the CKLA Grade 2 materials.

Multi-Level Analysis of Assessments

You will want to conduct an analysis of each student's performance on the various assessments using different "filters" or "lenses." We recommend you first look at each student's overall performance on these assessments for guidance as to whether a given student has the prerequisite skills needed to profit from Grade 2 instruction with standard pacing. As noted above, Unit 1 of Grade 2 CKLA provides a review of all of the short vowel letter-sound correspondences as well the various consonant letter-sound correspondences taught in Grade 1. All students, including those who performed well, will benefit from this review. However, the review is fast-paced. Students with low overall scores and performance on the assessments will profit from additional teaching of Grade 1 skills.

Interpreting Student Scores for Placement

Once you have administered and scored all assessments, enter students' scores on the Placement Planning Chart. Consideration of these scores is critical in determining what Skills instruction students need and how to group students to facilitate the best delivery of this instruction. We

recommend that you use the **Interpreting Assessment Scores** chart on the next page to make a first attempt to assign students in your class to a particular group. You may find, however, that you have students whose scores do not fall neatly into one of the categories on this chart. In these cases, you will need to take a much closer look at each student's performance on the assessments, using the specific analysis charts for **Word Reading in Isolation Analysis** and **Silent Reading Analysis**.

INTERPRETING ASSESSMENT SCORES

Note: The scores on this page should not be confused with the scores provided for the administration of assessments. Each of the scores in this chart represents a degree of mastery on the combined assessments administered.

If student scores:	After Grade 2 Unit 1, instruction should start with:	Group

Taking a Closer Look at Assessment Performance

Word Reading in Isolation Assessment Scores

The more words a student is able to read and the farther the student is able to progress in the assessment are indicators of preparation for Grade 2.

There are a total of 120 words included in Lines 1–24 of the Word Reading in Isolation Assessment. As a general rule of thumb, students who show good performance on the first 17 lines of the test, i.e., 65 words, have **adequate preparation** for Grade 2. Students who struggle with many of the words on these early lines may need to be regrouped to an earlier point in the CKLA grade-level materials.

Lines 9–12 consist of 20 Tricky Words taught in prior grades. Tricky Words are words that contain a sound-spelling that doesn't follow the basic code or is unusual enough to have not yet been taught. Students who struggle with these words will need remediation on any words read incorrectly.

Students who are also able to read words on lines 18–24, an additional 35 words, may have **strong or outstanding preparation** for Grade 2. They may also be ready to read trade books independently.

The Word Reading lines consist of the following:

- Lines 1–3: CVC words with short vowel spellings.
- Lines 4–6: words made up of short vowel spellings containing common consonant clusters
- Lines 7 and 8: words made up of short vowel spellings containing common consonant digraphs
- Lines 9–12: Tricky Words
- Lines 13–15: words with vowel digraphs, diphthongs and r-controlled vowels
- Lines 16 and 17: words with spelling alternatives for consonant sounds
- Lines 18–20: words with common vowel spelling alternatives for long vowel sounds
- Lines 21 and 22: words that include /ə/
- Lines 23 and 24: words with more spelling alternatives for vowel sounds

Silent Reading Assessment Scores

Students who answered 0–4 questions correctly on “Snacks” have **inadequate preparation** for the Grade 2 sequence of Skills instruction. These students likely have fairly significant skills deficits and will need to be regrouped to an earlier point of instruction in the CKLA grade-level materials. Additional information from the Word Reading Assessment should be used to guide placement.

Students who can answer five or more of the questions on “Snacks” and “Prince Vincent” have **adequate preparation** for the Grade 2 sequence. Students who cannot do this need remediation and/or to be regrouped to an earlier point in the CKLA grade-level materials. Additional information from the Word Reading in Isolation Assessment should be used to guide placement.

Students who can answer five or more of the questions on “The Beach” have **strong preparation** for Grade 2 and may be ready to read trade books.

Students who can answer five or more of the questions on “Sink or Float” have **outstanding preparation** for Grade 2 and are almost certainly ready to read trade books independently. If there are enough students performing at this level, they may be grouped together for Skills so they can move at a faster pace.

Note: Grade 1 teachers were asked to pass forward a summary of CKLA results for each student to Grade 2 teachers. A strong performance on the Grade 1 End-of-Year Assessment is an indication that the student should be ready for Grade 2 instruction, even if his or her performance on this Placement Assessment is now slightly below his performance at the end of the Grade 1 school year. Some learning loss is expected during the summer months if students have not been encouraged to continue reading. These students may also benefit from targeted practice using selected pages from either the Grade 1 or Grade 2 *Assessment and Remediation Guide*.

Analyzing Borderline Scores

Students with borderline scores are the most challenging to place. In particular, you may have some students who are right on the border between being strong enough readers to benefit from the Grade 2 instruction and not having adequate preparation. These might include students who read the first story on the Silent Reading Assessment and answered most of the questions correctly but struggled with the second story, or they might include students whose performance was inconsistent on lines 9–17 of the Word Reading in Isolation Assessment.

We strongly recommend that you take a closer look at these students' assessment performance using the **Word Reading in Isolation Analysis and Silent Reading Analysis Charts** that follow, keeping the following points in mind:

- In assessing the **Word Reading in Isolation Assessment**, remember not all poor scores are the same. Five correct out of 15 on a section of this assessment probably indicates a major problem reading the words or spellings in question. Ten correct out of 15, however, might result from the student not knowing a small set of letter-sound correspondences. This sort of problem can often be remediated in supplemental small group sessions, and may not require placing the student at an earlier point in the sequence of instruction.
- In assessing the **Silent Reading Assessment**, be aware that some students may have little previous experience with multiple-choice tests. They may struggle to answer the questions even if they read the story and understood it. You may wish to have borderline students read the story aloud to you and then discuss it with you.
- Remember one possibility is to place the student back at an earlier point in the CKLA grade-level materials, but a second possibility is to place them in the Grade 2 material and then provide remediation to correct specific problems. For example, if you can identify the specific letter-sound correspondences causing difficulty, or the specific Tricky Words he or she has not learned, you may be able to provide extra practice sessions while the student participates in Grade 2 instruction.
- If you are considering grouping less-prepared students with stronger students and teaching both groups the Grade 2 sequence, be sure to individualize instruction during small group time to meet all students' needs.
- If you feel you will be unable to provide such additional support sessions, this may be a reason to regroup less-prepared students to an earlier point in the CKLA grade-level materials.

However, as noted above, this student has STRONG preparation for Grade 2. Student was able to make sense of a story that contains some unusual and rare spellings not taught in the Grade 1 curriculum. Student has OUTSTANDING preparation for Grade 2 and is <i>almost certainly ready to read trade books independently.</i> The Grade 2 curriculum will help the student systematize the code knowledge he or she has learned and build fluency, while also improving writing and spelling ability.

Placement and Grouping Guidelines

We highly recommend that all Grade 2 teachers meet as a grade-level team to examine students' scores across the entire grade level, rather than having each teacher examine only the scores of students in his or her own classroom. Homogeneous grouping for Skills instruction is the most efficient and effective way to differentiate instruction and meet students' needs when teaching phonics skills. Once the grade-level team has examined the scores of all students on these assessments, you may find that it makes sense to regroup some students on the basis of their specific decoding skills for purposes of Skills instruction only.

The student scores you have been recording for both assessments will be useful in deciding where students should be placed for Skills instruction. Once students have been placed and grouped, these scores can be shared with other teachers who may be working with students for Skills.

(CKLA Skills instruction also includes spelling, grammar, and writing. However, decisions about placement in the CKLA materials are based on evaluating students' reading—decoding—and basic comprehension skills.)

Grade 2 teachers should meet as a team after they have completed the Placement Planning Chart (having assigned a group number to each student in their class). Teachers may wish to write each student's name and group number on an index card for ease in grouping students. Using the group numbers, begin sorting students from all classrooms on the basis of their group number, using the following guidelines.

<p>If there is only one classroom teacher per grade level . . .</p>	<p>...the teacher should start all students in Groups 1 and 2 with CKLA Grade 2, Unit 2, providing individualized remediation in small groups using Pausing Point activities and/or the <i>Assessment and Remediation Guide</i> as needed. Group 3 needs intensive intervention outside the regular classroom and should not start with CKLA Grade 2, Unit 2.</p>
<p>If there are two classroom teachers per grade level . . .</p>	<p>...one teacher provides Skills instruction to all Group 1 and 2 students, starting with CKLA Grade 2, Unit 2, while the other teacher provides Skills instruction to all Group 3 students, starting with Grade 2, Unit 1 of the <i>Assessment and Remediation Guide</i>. OR . . . one teacher provides Skills instruction to all Group 1 students, starting with CKLA Grade 2, Unit 2; the other teacher should provide Skills instruction to all Group 2 students, starting with CKLA Grade 2, Unit 2; and all Group 3 students, who need intensive intervention outside the regular classroom, would not start with CKLA Grade 2, Unit 2 but rather be provided the needed intervention.</p>
<p>If there are three classroom teachers per grade level . . .</p>	<p>...one teacher provides Skills instruction to all Group 1 students, starting with CKLA Grade 2, Unit 2; another teacher provides Skills instruction to all Group 2 students, starting with CKLA Grade 2, Unit 2; and the third teacher provides Skills instruction to all Group 3 students, who need intensive intervention, starting with Grade 2, Unit 1 of the <i>Assessment and Remediation Guide</i>.</p>
<p>If there are four classroom teachers per grade level...</p>	<p>...one teacher provides Skills instruction to all Group 1 students, starting with CKLA Grade 2, Unit 2; another teacher provides Skills instruction to the higher-level Group 2 students, starting with CKLA Grade 2, Unit 2; a third teacher provides Skills instruction to the lower-level Group 2 students, starting with CKLA Grade 2, Unit 2; and the fourth teacher provides Skills instruction to all Group 3 students, who need intensive intervention, starting with the Grade 2, Unit 1 of the <i>Assessment and Remediation Guide</i>.</p>

Note to Teacher

If you have access to Grade 1 and/or Kindergarten materials, you may consider using those materials in addition to or in lieu of the *Grade 2 Assessment and Remediation Guide*.

Placement for Listening & Learning

The Skills placement tests do not provide a basis for regrouping students during the Listening & Learning period. In fact, all students should participate in the Listening & Learning sessions on grade level, regardless of their decoding skills. Limited decoding skills will not prevent the student from learning from the read-alouds, discussions, and activities in Listening & Learning. In fact, the focus on oral language in the Listening & Learning periods may provide struggling decoders with an opportunity to shine.

Snacks

Six kids sat and had a snack.

Rob had six fish sticks.

Bud had ham.

Beth had a bag of chips and a glass of milk.

Rich had fish sticks and figs.

Jill had a hot dog.

Sam had six eggs.

Sam got sick.

The rest of the kids did not.

Snacks

1. What was Bud's snack?
 - A. fish sticks
 - B. chips and milk
 - C. ham

2. What was Sam's snack?
 - A. eggs
 - B. fish sticks
 - C. ham

3. What was Beth's snack?
 - A. chips and milk
 - B. fish sticks and figs
 - C. a hot dog

4. Which kid had chips?
 - A. Beth
 - B. Rob
 - C. Bud

5. Which kid had milk?

Prince Vincent

Once there was a prince named Vincent. Vincent came from France. He was a proud man with a loud voice.

Once, a bee stung Vincent on his cheek.

“Ouch!” said Vincent, grabbing his cheek. “What bee has stung me? What bee would dare to sting me?”

The bee buzzed.

“Look at me!” Vincent shouted at the bee. “I am the prince of France! You are a foolish bee if you think you can sting a prince like me!”

The bee buzzed off.

Vincent ran after the bee. He shouted in his loudest voice, “You will not escape from me, bee! I will ride after you on my horse!”

Vincent got his helmet and his lance. He got up on his horse. Then he rode off on his quest for the bee.

Vincent rode north and south. He rode past rivers and lakes. He looked for the bee in houses. He looked for the bee on farms. He looked for the bee up in trees and down in holes.

But he never found the bee.

Prince Vincent

1. What was Vincent?
 - A. a prince
 - B. a king
 - C. a princess

2. Where was Vincent from?
 - A. Rome
 - B. Greece
 - C. France

3. What sort of voice did Vincent have?
 - A. a loud voice
 - B. a soft voice
 - C. a bee-like voice

4. Which part of Vincent did the bee sting?
 - A. his leg
 - B. his nose
 - C. his cheek

5. What sound did the bee make?
 - A. whoosh
 - B. hum
 - C. buzz

6. What did Vincent tell the bee?
 - A. Sting me again!
 - B. Buzz off!
 - C. Look at me!

7. Where did Vincent look for the bee?
 - A. in houses and on farms
 - B. under a rock
 - C. in an insect shop

8. What happened in the end?
 - A. Vincent killed the bee.
 - B. The bee killed Vincent.
 - C. Vincent never found the bee.

The Beach

Last Sunday David and Eve went to the beach.

It was a sunny day. It got hotter and hotter. At last it was ninety-five degrees.

Eve laid out a blanket. Then she got out her sunscreen. She rubbed the white cream on her back. She rubbed it on her arms and her legs. She rubbed it on her nose and her cheeks. She even rubbed it on her elbows and her toes.

“David,” she said, “would you like some sunscreen?”

“No, thanks,” said David. “I’ll be okay without it.” Then he ran off to play soccer.

David played soccer. He tossed a Frisbee. He ran a relay race. He rowed a boat. He swam. He splashed in the waves. He went diving for shells. He made a scarf out of seaweed. Then he lay down and took a nap.

All this time the sun was shining brightly. Rays of sunlight were landing on David’s arms and legs.

At last the daylight faded. David was set to go home. But when he got up, he felt some pain on his legs. He looked down. His body was as red as a lobster. His thighs looked like two roasted hams. His toes looked like ten bright red pigs running on the sand.

“EEK!” cried David. “I’m fried! I should have used Eve’s sunscreen!”

Sink or Float

It was the first Thursday of summer vacation. It was hot. Joey Jenkins and his younger brother Pete were sitting by the pool trying to stay cool. Pete had his ankles and toes in the water.

“Hey Pete,” Joey shouted at his little brother, “let’s play sink or float.”

“How do you play?” asked Pete.

“First I go and find something,” explained Joey. “Then I ask you if you think it will sink or float. Then I throw it in the pool and we find out if you were right or wrong.”

“Okay,” replied Pete.

Joey ran to the garage and got a brass key.

“That must be pretty heavy,” said Pete. “I say it’s going to sink for sure!”

Joey tossed the key in the pool. It sank below the surface in an instant.

“Okay, little brother,” said Joey, “you won that one. Do you want to play again?”

Pete nodded his head.

Joey sprinted up to the house and got an apple from the boys’ mom.

“I predict that will float,” said Pete.

Joey tossed the apple in the pool and, sure enough, it bobbed and floated on top of the water.

Joey ran over to the woods and picked up an acorn that was lying beneath a towering old oak tree.

“Gee,” said Pete. “That’s a tough one. An acorn might sink, but then again, it might float.”

“Sink or float?” said Joey. “I need a decision now!”

“Um, I guess it will sink,” Pete said.

Joey tossed the acorn in the pool. It bobbed and floated on top of the water right next to the apple.

“Ha, ha! You lose!” Joey cried.

Joey ran into the house and got a plastic model airplane he had built.

“Sink or float?” he asked.

“Sink!” said Pete.

Joey set the airplane ever so gently on the surface of the water. At first it looked like the airplane was floating.

“Ha, ha!” said Joey. “It floats! You lose again!”

“Not so fast!” said Pete. He thumped the water with both of his feet and made a gigantic wave. The wave went crashing over the airplane. The airplane filled with water and began sinking.

“It sinks!” said Pete, smiling. “So I win!”

“No fair!” said Joey. “That’s cheating!”

Sink or Float

1. When does the story take place?
 - A. winter
 - B. summer
 - C. fall

2. Which boy is older?
 - A. Joey
 - B. Pete
 - C. They are the same age.

3. Which game do the boys play?
 - A. Sink or Float
 - B. Splash Bomb
 - C. Water Polo

4. Which boy sets things on top of the water?
 - A. Joey
 - B. Pete
 - C. They take turns

5. Which boy guesses whether the things will sink or float?
 - A. Joey
 - B. Pete
 - C. They take turns

6. Which of the things listed below sinks?
 - A. apple
 - B. acorn
 - C. key

7. Who sets the airplane on the water?
 - A. Joey
 - B. Pete
 - C. the boys' mom

8. Who makes the wave that makes the airplane sink?

 - C. the boys' mom

Grade 2 Fluency Assessment

Fluency Assessment

In addition to assessing student knowledge of individual letter-sound correspondences, it is also important to assess the fluency with which students read. Measures of reading fluency typically take into account both the accuracy and rate at which students read. Reading fluently requires automaticity in decoding text. The extent to which students are not able to decode quickly, accurately, and automatically will impact their understanding of what they read.

Fluency can be assessed easily by providing students with grade level text that they have not previously read or practiced, asking them to read the text aloud. The teacher notes both the time required to read the passage and any errors made while reading aloud. Fluency assessment passages and procedures are provided following each section of this Guide, beginning with Section III (Unit 2).

It may be useful to compare a student's performance on measures of fluency to norms for other Grade 2 students. One particular set of norms is provided here. When using the table on the next page, be sure to take into account the time of the year in which the student is assessed.

Students who perform below the 50th percentile on fluency assessments may benefit from specific remediation designed to improve fluency. While it is beyond the scope of this Guide to provide detailed suggestions for improving fluency, the following best practices are highly recommended:

- Model fluent reading for students by reading passages aloud with expression, demonstrating how to use punctuation as a guide for pauses.
- Provide opportunities for students to reread passages, after corrective feedback on any decoding errors has been provided. Pairing students for partner reading and using Reader's Theater are both strategies that can be used to encourage rereading. Occasional choral reading may also be effective.

2006 Hasbrouck & Tindal Oral Reading Fluency Data

Jan Hasbrouck and Gerald Tindal have completed an extensive study of oral reading fluency. The results of their study were published in a technical report entitled, "Oral Reading Fluency: 90 Years of Measurement," which is available on the University of Oregon's website, birt.uoregon.edu/tech_reports.htm, and in *The Reading Teacher* in 2006 (Hasbrouck, J. & Tindal, G. A. (2006). Oral reading fluency norms: A valuable assessment tool for reading teachers. *The Reading Teacher*. 59(7), 636-644.).

The table below shows the mean oral reading fluency of students in grades 1 through 8 as determined by Hasbrouck and Tindal's data.

You can use the information in this table to draw conclusions and make decisions about the oral reading fluency of your students. **Students scoring 10 or more words below the 50th percentile using the average score of two unpracticed readings from grade-level materials need a fluency-building program.** In addition, teachers can use the table to set the long-term fluency goals for their struggling readers.

Average weekly improvement is the average words per week growth you can expect from a student. It was calculated by subtracting the fall score from the spring score and dividing the difference by 32, the typical number of weeks between the fall and spring assessments. For grade 1, since there is no fall assessment, the average weekly improvement was calculated by subtracting the winter score from the spring score and dividing the difference by 16, the typical number of weeks between the winter and spring assessments.

Game Directions and Templates

Game Directions and Templates

Struggling readers need repeated practice decoding and reading specific letter-sound correspondences in words. Reading the Word Lists included in this Guide will provide some practice, but often additional practice will be necessary. Most students will find it more enjoyable to practice reading words when a game format is provided.

Games also provide an opportunity for differentiated instruction. Students who need practice reading words with different letter-sound correspondences may still play the same game, with each student having his own specific deck of word cards to be read as part of the game. Use the Word Lists in each section of this Guide to create card decks for your students.

Directions are provided for each game, followed by templates for the game boards and word cards.

Word Block

- Use the provided grid and template word cards or create a grid of equal size squares on a poster board and two sets of square cards with a word written on one or both sides. The cards should fit into the squares on the grid. Each set of cards should either be a different color or the words should be a different color to differentiate between players.
- Have students take turns drawing a card from their pile and then reading the word on the card. If the student correctly reads the card, he/she may place it in any square on the grid.
- The object of the game is to try to get five cards in a straight line (horizontally or vertically) before the other player. Students can use their cards to block an opponent from getting five in a row, as well as try to get five of their own cards in a row.

Moon Shot

Also need: Tokens or playing pieces for each player

- Use the provided game board or create a similar playing board on a poster board.

- Then create three sets of cards using the templates:
 - Word Cards
 - Good to Go Cards
 - Problem Cards
- You will also need to provide some kind of small marker or token as playing pieces for each student.
- Have students take turns drawing word cards. If a student reads the word card correctly, then he/she can draw a Good to Go card and follow the directions on the card. If a student does not read the word correctly, then he/she will draw a card from the Problem pile and follow the directions on that card.
- The first student to make it to the “moon” is the winner.

Roll, Flip, Read

- Create a set of cards for each player (see template) that has a word to be read on one side and a number on the other side.
- Call out a number at random and have each student take turns finding a card with that number on it in his or her stack. The student then reads the card aloud. If the word is read correctly, the student may then roll a die and whatever number it lands on is the number of points he or she receives.
- The student with the most points is the winner.
- An alternate way to play that does not involve dice is for each card to have a pre-assigned point value based on the difficulty of the word.

Race against the Clock

- Create a set of word cards for each player (see template). Assign each word a point value based on the difficulty of the word; you may want to assign one point for one-syllable words, two points for two-syllable words, three points for three-syllable words, and so on.
- Each player gets a preset time limit to attempt to read as many words as possible within the time. Students get points for the words they read correctly and get no points for words they get wrong or skip.
- The student with the most points is the winner.

Crazy Eights Variation

- Create a deck of word cards. Each word should be one of four colors (suits) and there should be an equal number of each color.
- Give each player five cards to start. Put the rest of the deck in the middle and flip the top card over next to the deck. This face-up card becomes the discard pile.
- Taking turns, each student can either play a card that is the same color or that starts with the same letter as the card at the top of the discard pile. To be able to play a card, a student must correctly read the card or they lose their turn.
- If a student does not have a card that is either the same color or that starts with the same letter as the top card of the discard pile, then he or she can draw from the deck. If there are no more cards left in the deck, shuffle the discard pile and that becomes the new deck.
- The first student to run out of cards is the winner.
- You may also wish to include *skip*, *add*, *draw 1*, *draw 2*, *draw 3*, and *reverse cards*.

Journey through Space

- Using the card templates, create a set of cards as follows. Write one word on each card. Some cards will only have words; others may have words with an alien symbol or comet symbol. (See card templates.)
- Place all of the cards in a container. Pass the container around, having each student draw a card and read the word aloud. If he or she reads the word correctly, then he/she gets to keep the card. If he/she does not read the word correctly, he/she places the card back into the can. If a student correctly reads a word on a card with an alien symbol, he/she can take a card from another player. If a student correctly reads a word on a card with a comet symbol, he/she gets a second turn.
- The student with the most cards at the end of the game wins.

Flip

- To play, either call out a number or have the student roll a die (one or two) and then read the word that corresponds to the number rolled. If the student reads the word correctly, then have him or her “flip” the word (fold the row over).
- The first student to flip all of the words is the winner.

Checkers

- Use the provided checkerboard and checkers template or a store bought checkerboard with a set of checkers.
- Create a set of words cards for each student.
- The rules are the same as regular checkers except that in order to make a move, the student must first draw and read a word card correctly. If the student reads the card correctly, then he/she may make a move. If he/she misreads the word, the turn is lost.
- The first player to take all of the other player's pieces is the winner.

Race to the Top

- Make a set of words cards for each player.
- Each student gets his/her own ladder and a set of word cards. Students flip over a card and if they read the word correctly, they can move their marker up a space; if they misread a word, they fall down a rung. First one who gets to the top wins.

Over the Rainbow

- Create a set of clue envelopes for each player. Each envelope should contain a card with either a word or instructions on it. Make as many envelopes as there are spaces from the start place to the pot of gold.
- To play, have each student take turns opening his/her first clue. The student opens the first clue and does what the clue says (e.g. read these words); if he/she completes the task correctly, then he/she can move on the board to the next space, where he/she will receive their next clue. The first one to the pot of gold wins.

Swim to the Finish

- Make a copy of the template game board.
- Each student should write his/her name at the top of a column or "swim lane."
- Pick out a word for a student to read aloud.
- If the student reads the word correctly, then he/she may place a check mark in one of the squares of his or her "swimming lane." If a student does not read the word correctly, he/she may not check a square.

- Each student gets only one chance to read a word during his/her turn. Regardless of whether the student reads his/her word correctly, play then moves to the next student.
- The first person to reach the end of the pool wins.

Baseball Game

- Write target words on cards. You may wish to also assign value to the card based on the difficulty of the word. Examples include: base hit, double, triple, homerun, etc.
- Use the game board on the template with playing pieces or draw a baseball diamond similar to the template on the board.
- Divide the group into two teams, having one team come to the front of the room and line up in front of the board
- Each team takes a “turn at bat” as follows:
 - Pick a card from the pile and ask the first person on the team to read it. If the word is read correctly, draw a line from home plate to first base, signifying a “hit.” This player should go to the back of the team’s line, while the next player comes forward to read the next card. If he/she reads the word correctly, draw a line from first to second base. Play continues in this way so that each time a player reads a word correctly, a line is drawn to the next base. If the fourth player reads the word correctly, draw a line from third base to home plate and mark “1 run” for this team. Play continues by the members of this team so long as no words are misread. When a word is misread, the next team takes its turn at bat.
- As in the actual game of baseball, any “players left on base” when a word is misread, do not count or add to the score.

Basic Code: 'f' > /f/

Focus: 'f' > /f/	Teaching	Materials
Warm-Up	Show students previously reviewed Spelling Cards and have them tell the sound each letter represents. If additional practice is still needed, show the card and say the sound of each letter, having the students repeat each sound.	previously taught Spelling Cards
Teaching	<p>Show the picture of the sound /f/, i.e. 'f'. Tell students the sound of the letter 'f'. Tell students you will say and they will hear words with the /f/ sound in the beginning of the word.</p> <p>Say the words <i>fat, fig, fun</i>. Repeat with words with the /f/ sound in the middle... <i>muffin, gift, goofy</i>. Repeat with words with /f/ sound in the end... <i>cliff, half, muff</i>.</p> <p>Tape the 'f' > /f/ card to the appropriate space in the Consonant Code Flip Book as students refer to the Individual Code Chart.</p>	<p>Spelling Card 'f' > /f/</p> <p>Consonant Code Flip Book</p> <p>Individual Code Chart</p>
Guided Practice	<p>Have students number their paper from 1–6 and then draw three horizontal lines for each row. Tell students that you will say a word with three sounds. Have them write the spelling for each sound on the line. Focus on the /f/ sound.</p> <p>Dictate words one at a time: <i>fig, fat, fun, fit, fin, fan</i>. To check spelling, ask students to orally spell the word while you write the word on the board or chart paper.</p>	paper and pencil

Teaching	<p>Explain to students that the sounds /i/, /e/, and /a/ are made with the mouth open.</p> <p>Explain that to make the /i/ sound, we open our mouth just a little bit and gently push air out. To make the /e/ sound, we open our mouth a bit more and gently push air out. To make the /a/ sound, we open our mouth even more and gently push air out.</p> <p>Repeat the progression /i/, /e/, /a/ several times and have students put their hand under their chins so they can feel their mouths opening wider with each new sound. As they make each sound, display the appropriate Spelling Card and tape it to the appropriate page and space in the Vowel Code Flip Book.</p> <p>Say the following words and ask students to identify the vowel sound they hear in the middle: <i>sit, pet, mat, net, rest, sat, cat, flick, peg, pig</i>. Again, display the appropriate Spelling Card as students refer to the Individual Code Chart.</p>	<p>Spelling Cards 'i', 'e', 'a'</p> <p>Vowel Code Flip Book</p> <p>Individual Code Chart</p>

CVC - Fast Reads

To help students distinguish between /i/ and /e/, have them work in pairs to practice reading these words. Let each student read through the list once without timing. Then, ask students to time each other as they read the lists. If a reader makes a mistake, he/she must start over at the beginning. Have students do multiple readings to try to improve their time.

Initial and Final Consonant Clusters (*clip, risk*)

Sample Lesson Plan Consonant Clusters

Focus: Consonant Clusters	Teaching	Materials
Warm-Up	Gather Letter Cards ‘m’, ‘n’, ‘t’, ‘d’, ‘c’, ‘k’, ‘g’, ‘f’, ‘v’, ‘s’, ‘z’, ‘p’, ‘b’, ‘y’, ‘x’, ‘i’, ‘e’, ‘a’, ‘u’, ‘o’. Show students each card, one at a time. Say two sounds. Have students say the correct sound. Alternatively, have students repeat the sound after you, say each sound, or say the sound as you flash the cards.	Letter Cards
Teaching	Place Letter Cards ‘i’, ‘a’, ‘o’, ‘n’, ‘t’, ‘d’, ‘c’, ‘s’, ‘p’, ‘b’, ‘l’, ‘r’, ‘h’ in a middle row on a table. Place the ‘i’, ‘a’, ‘o’ on top and the remaining consonants along the bottom. Review the sounds for each card by pointing and saying the sound. Have students repeat the sounds. Move the ‘b’, ‘a’, ‘t’ cards to the center of the table to spell <i>bat</i> . Read the word, ask them to read the word. Remove the ‘a’ card and add the ‘i’ card. Say, “If that was <i>bat</i> , what is this?” Ask a student to read a word. Continue with the words, including two consonants at the beginning or the end of a word. For example, go from <i>sit</i> to <i>spit</i> , telling students that you have two consonants in the beginning of the word that each make a sound. Sound out <i>spit</i> /s/ /p/ /i/ /t/ and then read it. Continue with the word chain and remind them each time there is a consonant cluster, each letter makes a sound.	small Letter Cards
Guided Practice	Give students paper and pencil. Tell them you are going to say some words. Explain that each word will be similar to the previous word but one sound will be different. Tell them to write each word you say. As you say the word, hold up one finger for each sound. Ask students to count the sounds and draw a line for each sound on their paper. For two sounds, they should draw two lines: __ __. Once they draw the lines, ask them to write the letters those sounds make. Have them read the word back to you.	paper, pencil
Independent Practice	Have students read the following phrases: <ol style="list-style-type: none"> 1. bulb in lamp 2. soft plum 3. slid on sled 4. mom in pants 5. jump in pond 6. snug in bed 7. red stamp 8. dad naps 9. rat in nest 10. lost hat

Digraphs

Focus: Consonant Clusters	Teaching	Materials
Warm-Up	Gather Spelling Cards of sounds previously taught (Spelling Cards representing the two letters that make up the digraph should be included). Show students each card. Say the sounds. If students have learned digraphs, ask for the sound of the digraphs. Show them two letters and ask them to tell you the sound of the digraph. Alternatively, have students repeat the sound after you say each one or say the sound as you flash the cards.	previously taught Spelling Cards Code Flip Books
Teaching	<p>Show students the two letters that make up the targeted digraph.</p> <p>Draw a square, a triangle, and a house (triangle on top of square) in a row on the board. Point to each shape and ask students what it is (a square, a triangle, and a house). Explain that a square by itself is a square and a triangle by itself is a triangle, but a square with a triangle on top is something completely different: a house. Write the first letter of the target digraph under the square you drew. Ask for the sound it makes. Write the second letter of the target digraph under the triangle. Ask for the sound.</p> <p>Write the target digraph under the house. Tell students the sound made by the digraph. Explain rapidly that each letter individually makes a sound, but together make one sound.</p> <p>Show students the target Consonant Digraph Spelling Card and tell them the sound. Have students repeat the sound. Tell students different words with the targeted sound at the beginning and end of words. Students identify target sound. Tape the Spelling Card to the appropriate page and space in the Consonant Code Flip Book.</p>	board or chart paper consonant digraph Spelling Card(s) Consonant Code Flip Book Individual Code Chart
Guided Practice	Word Dictation: Dictate the words with target sound. Instruct students to draw a line for each sound they hear. Write each word, putting one sound on each line. For example, the word <i>think</i> would take up four lines /th/ /i/ /ng/ /k/. Remind students that the digraphs go on one line. Repeat the exercise for as many words as you can fit into your time frame.	paper and pencil
Independent Practice	Read words that have the target digraph sound and other digraphs previously taught. Have students write the words they find with digraphs.

Six kids can lift Ann's bag, if the six kids are big and strong.

Name: _____

King Fred

King Fred had lots of cash.

The cash was in a big chest.

King Fred got a man to help him stash his cash.

“Dig a big trench,” said King Fred.

“Where?” said the man.

“Here,” said King Fred.

The man dug a big trench.

“Drop the chest in the trench,” said King Fred.

“What chest?” said the man.

“This chest,” said King Fred.

The man set the chest of cash in the trench.

“Sh!” said the king.

“Tell no one where I hid the chest!”

“What chest?” said the man.

Name: _____

Gifts

Dad got us gifts.

He got me a truck.

He got Quinn a mitt and a bat.

He got Mom a box.

Mom held the box and said, "What can this be?"

He said, "Lift up the lid."

She did.

"It's a dress!" she said.

We said, "Dad is the best!"

Name: _____

Brad Briggs

Brad Briggs has not slept.

He was up at ten.

He was still up at one.

He was still up at six when his mom got up.

Brad is not well.

His legs hang limp.

His chest sags.

His chin flops on his desk.

Name: _____

King Kong

King Kong was a chimp—a big chimp.

He got mad and sat on a bus.

Smash!

Then he sat on a cab.

Crunch!

“A big chimp just sat on a bus!” a man said.

“This chimp is mad.

This chimp is bad.

It sits on things!

It stomps on things!

Who can tell what it will do next?

Who will stop it?”

“We will stop that chimp!” said the man.

“Stop,” said the man.

King Kong did.

Name: _____

Who Did It?

Smash! The glass cracked.

Dad ran out and asked, “Who did this?”

Fran said, “Ted did it.”

Ted said, “Beth did it.”

Beth said, “Max did it.”

Max said, “Tex did it.”

Tex was the dog.

Tex said, “Yap, yap!”

Dad got mad.

“Tex did not do this!” he said.

“Tex is a dog!

A kid did this!

Tell me, who did it?”

At last, Ted said, “It was me.”

Bud, the Cat

That is a snap shot of Nat's cat,
Bud.

Nat got Bud from a vet.

Bud had a bad leg.

The vet had to fix Bud's leg.

The vet left Bud in a pen with
the rest of the lost cats.

Bud sat and sat.

No one ran in to get him.

Then Nat said, “Mom, can I have
him? Can I? Can I? Can I?”

At last Dot said yes.

The Fish

Nat got six fish.

Nat got them from from a pet shop.

The fish swim and splash and
munch on fish snacks.

That is a snap shot I got of Nat
and the fish.

A lid sits on top of the fish.

Dot set the lid on top so Bud
can't munch on the fish!

The cat can smell the fish.

It can press on the glass.

It can grab at the fish.

But it can't get them.

The Bus

Nat said, “Can Beth and I get on a bus?”

“Yes,” Dot said, “there is a bus stop just up the hill.”

So all of us went up the hill to the bus stop.

At the bus stop, there was a thrush.

Mom got this snap shot of us and the thrush.

At the bus stop, Nat said, “Beth,
this is the best bus!”

I said, “Why? Is it fast?”

“No,” Nat said, “it’s not that fast.”

“Then why is it the best?”

Nat just sat there with a big grin.

At last Nat said, “There it is!”

It was a big red bus with a top
deck.

Nat and I sat up there. It was
the best bus!

The Past-Tense Marker *-ed*

Whole Group or Small Group

- Write the following sentences on the board and have students read them aloud. Point out that the verb *dusts* is in the present tense, while *dusted* is the past tense.

Mom dusts the shelf.

Mom dusted the shelf.

- Underline the ending *-ed* in *dusted*. Point out that *-ed* is read as /e/ /d/, just as one would expect. Explain that *-ed* is the past-tense marker that shows that the action has already happened.
- Write the sentences below on the board and have students read them aloud.

Ben spells the word.

Ben spelled the word.

- Ask students if they see a difference between the two sentences.
- Point out that the verb in the first sentence is in present tense and the verb in the second sentence is in past tense.
- Underline the ending *-ed* in *spelled*, which is pronounced /d/ in this example. Again, point out *-ed* is the past-tense marker that shows that the action has already happened.
- Write the following sentences, including the omission, on the board.

Jen brushes the dog.

Jen _____ the dog.

- Tell students that the sentence with the omission is in past tense.
- Ask students to fill in the blank with the verb *brush* in past tense. Have a student come up to the board and write the word in the blank. (*brushed*)
- Point out that in this example, the past tense marker *-ed* is pronounced /t/.
- Repeat with the sentences below.

Pat plants the grass.

Pat _____ the grass. (*planted*)

Dad grills two hot dogs.

Dad _____ two hot dogs. (*grilled*)

Teaching Tricky Words as a Remedial Intervention in Grade 2

The focus for students receiving early reading instruction in the CKLA K–2 materials is on systematically learning the letter-sound correspondences that will allow them to decode words in the English language. Unlike most reading programs, in CKLA in these early grades, students are not taught to memorize a list of high-frequency words such as those found on the Dolch or the Fry Lists. In fact, many of the words on these lists are “decodable” once students learn the specific letter-sound correspondences.

Of course, it is next to impossible very early on to write coherent stories without using some words that include letter-sound elements that students have not yet been taught. When non-decodable words were needed to advance a story line, students were taught that these words were *Tricky Words*. In most instances, they could sound out parts of the word, but not all of it, i.e., the *tricky* part. Students practiced reading, copying, and then writing these words from memory as a way to learn them. When first introduced in reading selections, the words were also underlined throughout several stories.

If you find that you have students who do not quickly and automatically recognize some or all of these Tricky Words, it is important first to identify whether this is reflective of a global deficit in word attack skills or whether the problem is limited to specific Tricky Words. Students who have difficulty with Tricky Words who also demonstrate no or very limited knowledge of the letter-sound correspondences of the basic code need intensive overall remedial instruction in all word attack skills, not just Tricky Words. They will most likely benefit from being placed in a lower level of Skills instruction than Grade 2. You should use results from the Grade 2 Placement Assessment to guide placement.

You may find, however, students who have a specific problem recognizing Tricky Words. These students will benefit from targeted instruction using the materials in this section of the *Assessment and Remediation Guide*. You will first want to determine which specific words are problematic. If you have administered the Grade 2 Word Reading in Isolation Placement Assessment, you can refer to these results. If you have not yet formally assessed a student’s knowledge of Tricky Words, you may want to administer the assessment that is included at the end of this section as a pre-test, prior to intervention. We have also included a complete list of the 220 Dolch Sight Words if you think that a student needs assessment and instruction on additional Tricky Words beyond the words targeted in this section.

In terms of remedial instruction for students, it will be most efficient to directly teach three to five unknown Tricky Words at a time as sight words, using the lesson template provided.

Remedial Lesson Template

Tricky Words/Sight Words

Note: Tricky Words are words that include letter-sound spellings not been explicitly taught as a decodable spelling. All or only part(s) of a word may be tricky. Some words or parts of words initially taught as tricky in Kindergarten, Grade 1, and even the early units of Grade 2 subsequently become “decodable” once additional letter-sound spellings are taught. Other Tricky Words will remain Tricky Words, meaning they are not truly decodable according to the letter-sound patterns taught. Many times Tricky Words are also high-frequency words. It is important that students be able to quickly recognize and read these words.

Focus: Tricky Words	Teaching	Materials/Resources
Warm-Up	<p>Explain to students that most words in English “play by the rules” and are pronounced exactly the way you would expect, based on the letter-sound spellings taught. But some words, or parts of words, do not play by the rules; these words are called Tricky Words and can be difficult to read and write.</p> <p>Tell students they will practice reading some Tricky Words and some not tricky (fully decodable according to the sound-symbol correspondences taught).</p> <p>Show students the green and yellow index cards. Words written on green cards can be sounded out; the color green signifies “go.” Explain the color yellow signifies “caution”; either all or part of the words written on the yellow cards are tricky and cannot be sounded out.</p> <p>Write each Tricky Word on an individual yellow index card. If this is an initial Tricky Word remediation lesson, choose no more than five Tricky Words to practice at a time. In subsequent lessons, the Warm-Up exercise can include practice reading Tricky Words from previous lessons.</p> <p>Ask students to first read each green card, emphasizing they can sound out each of these words. If this is an initial Tricky Word remediation lesson, go to the Introduction/ Guided Practice section to teach each Tricky Word. If this is a follow-up remediation lesson, show yellow index cards of Tricky Words already taught.</p>	<p>yellow index cards: Choose Tricky Words from the Tricky Word sections of Pausing Points, this guide, and/or from test results for individual students.</p> <p>green index cards: Write the following words (and/ or any other decodable words) on the index cards: <i>him, then, if, will, up, them, can, that, is, but, an, not, and, with, had, on, at.</i></p>

<p>Introduction/ Guided Practice</p>	<p>Tell students you are going to teach them how to determine if a word (or part of a word) is tricky.</p> <p>Write the Tricky Word you want to teach on the board or chart paper and ask students how they would pronounce it by blending. (The most logical pronunciation, at this point, would be the code that has been taught.) For example, we would expect to pronounce <i>was</i> as /w/ /a/ /s/.</p> <p>Explain why the word is tricky. For example, the word <i>was</i> has a decodable initial sound spelling: ‘w’ is pronounced /w/. However, the rest of the word is tricky because ‘a’ ‘s’ is pronounced /u/ /z/.</p> <p>Tell students when reading a Tricky Word (or tricky part of a word), they simply have to remember the word and how to pronounce it. The letters don’t follow the usual sound correspondence patterns that have been taught.</p> <p>Use the Tricky Word orally in a sentence and point to the Tricky Word when you say it in the sentence.</p>	<p>board or chart paper</p>
<p>Independent Practice</p>	<p>Tell students they will practice writing Tricky Words.</p> <p>Have students take out a pencil and a piece of paper and draw a line down the center of their paper, from top to bottom.</p> <p>Write the Tricky Words you are targeting, one at a time on the board. Tell students to:</p> <ol style="list-style-type: none"> 1. See it 2. Say it 3. Spell it 4. Write it on one side of their paper 5. Fold the paper in half and then copy the word from memory onto the other side of the paper. 	<p>paper and pencil</p>
<p>Possible Small-Group Activities</p>	<p>Tricky Word Bingo</p> <p>Tricky Word Concentration</p> <p>Tap the Word</p> <p>Have students point to and read Tricky Words on word wall.</p>	<p>Unit 2 Pausing Point contains directions and templates for all of these games.</p>

Two-Syllable Words

Focus: Two-Syllable Words	Teaching	Materials
Warm-Up	Remind students that words can be broken into chunks called syllables. A syllable has one, and only one, vowel sound. This means that a word has as many syllables as it has vowel sounds. For example, a word with one vowel sound has one syllable, and a word with two vowel sounds has two syllables.	
Introduction Teaching	<p>Tell students that today they will read two-syllable words, i.e., words with two vowel sounds.</p> <p>Remind students that one way to figure out how to chunk letters into syllables is to first point to the two vowels. If there are two consonants between the vowels, divide the word into syllables by dividing between the consonants. If there is only one consonant, try dividing after the consonant.</p> <p>Students should read the words by blending the sounds in the first syllable, then blending the sounds in the second syllable, and then putting the two syllables together.</p> <p>Ask students to sound out the word by first sounding and blending the sounds in the first syllable, then sounding and blending the sounds in the second syllable, and then putting the two syllables together.</p>	board or chart paper
Guided Practice	Repeat this process with additional two-syllable words.	

Note: You may want to scaffold early instruction and practice in reading two-syllable words by either leaving a space between syllables when writing the word or inserting a dot between the syllables. Be sure that students understand that this is not how the word is conventionally written. You are writing it this way to help students in chunking the syllables for decoding.

Two-Syllable Words
Two-Syllable Baseball
Whole Group or Small Group

Write 10–20 two-syllable words from the Two-Syllable Word Lists on index cards.

Draw a baseball diamond similar to the picture below on the board.

Divide the class into two teams, having one team at a time come to the front of the room and line up in front of the board.

Each team takes a “turn at bat” as follows:

Pick a card from the pile and ask the first person on the team to read it. If the word is read correctly, draw a line from home plate to first base, signifying a “hit.” This player should go to the back of his team’s line, while the next player comes forward to read the next card. If he reads the word correctly, draw a line from first to second base. Play continues in this way, so that each time a player reads a word correctly a line is drawn to the next base. If the fourth player reads the word correctly, draw a line from third base to home plate and mark “1 run” for this team. Play continues by the members of this team so long as no words are misread. When a word is misread, the next team takes its turn at bat.

Note: As in the actual game of baseball, any “players left on base” when a word is misread do not count or add to the score.

Games

Name: _____

Spelling Search Game: 's', 'ss', 'c', 'ce', and 'se'

Whole Group or Small Group

This game is intended for groups of two to six students who have learned the spellings 's' as in *sun*, 'ss' as in *kiss*, 'c' as in *cent*, 'ce' as in *fleece*, and 'se' as in *moose*. This game can also be played in larger groups, but the game board may need to be enlarged slightly to accommodate additional tokens.

Tape the left side of the game board onto the right side. Make copies of the record cards printed four to a page.

Set up the board and make sure that each student has a record card, a game token, and a pencil. (You can use chips or small squares of colored paper for game tokens). You will also need one regular six-sided die.

Explain that the goal of the game is to be the first player to collect two examples of each of the spellings listed on the record card.

Have students place their tokens on the star. Have each student roll the die. The student with the highest score goes first.

Have the first player roll the die and move his or her token the number of spaces indicated on the die. Note that, after moving onto the board, the player will be able to choose to move up or down. Students can move up or down, left or right. Diagonal moves are not permitted.

Ask the player to read the word he or she landed on and then copy the word onto his or her record card on one of the lines for the spelling it contains.

Have the next player (moving clockwise) roll the die and move his or her token.

Play continues until a student fills the record card with two examples of each spelling.

Note: Spaces with an asterisk contain words that have more than one spelling for the /s/ sound. Students who land on a space with an asterisk can copy the word onto their card twice. By navigating to these spaces, students can fill up their record cards more quickly.

Spelling Search Game: 'j', 'g', and 'ge'

Whole Group or Small Group

This game is intended for groups of two to six students who have learned the spellings 'j' as in *jet*, 'g' as in *rage*, and 'ge' as in *twinge*. It is played the same way as the game described above.

Spelling Card Game

Whole Group or Small Group

Give one or two students a subset of the Spelling Cards reviewed in this unit representing two to six sounds and six to fifteen spellings for those sounds. (Use the extra cards supplied).

Ask students to sort the cards by sound, so that each sound has its own row, e.g., there is one row for /s/, one row for /z/, one row for /k/, etc.

Digraphs

Focus: Digraphs	Teaching	Materials
Warm-Up	Review the short vowel sounds from Sections I and II: /i/, /e/, /a/, /u/, and /o/ using the Vowel Code Flip Book. You can make a list of the sounds on the board or a piece of paper. Provide a few example words for each vowel spellings: <i>pit, sit, fit, bed, pet, bell, hat, sat, cap, pot, mop, sock, cut, run, fun.</i>	board or chart paper Vowel Code Flip Book
Teaching	<p>Write the word <i>at</i> and sound it out with students, emphasizing that the vowel sound in this word is /a/. Tell students that they are going to learn to read words with the vowel sound /ae/.</p> <p>Write the word <i>ate</i>. Explain that even though the ‘a’ and ‘e’ are separated, they work together to stand for the /ae/ sound. Tell students that we call this kind of spelling a “separated digraph.”</p> <p>Display the Spelling Card ‘a_e’ > /ae/, saying the sound. Tape the card on the appropriate page and space of the Vowel Code Flip Book, as students refer to the Individual Code Chart.</p> <p>Circle each spelling in <i>ate</i> as you say its sound, drawing a horseshoe around the ‘a’ and ‘e’. Point to each spelling and say its sound again; point to the ‘a’ with your index finger while simultaneously pointing to the ‘e’ with your middle finger, saying /ae/.</p> <p>Continue this procedure for the following words: <i>name, late, safe.</i></p>	board or chart paper Spelling Card ‘a_e’ > /ae/ Vowel Code Flip Book Individual Code Chart
Guided Practice	<p>Pop-Out Chaining: Write the word <i>fat</i> and ask students to read it. While adding an ‘e’ to the word, ask students, “If that was <i>fat</i> and I add an ‘e’, how do we now say this word?” (<i>fate</i>).</p> <p>Continue with this procedure with the following words: <i>pan, rat, cap, mad, tap.</i></p>	board or chart paper
Independent Practice	Read words that have the target digraph sound and other digraphs previously taught (you may use the Reader or stories provided in this guide). Have them write the words they find with digraphs.	paper

Slap the Spelling

Small Group

Cut out a long, rectangular slip of paper and write 'u_e' (as in *cute*) on each end. The spellings should face away from each other (see illustration). Repeat for 'u' (as in *cut*).

Place the slips of paper in a row on the floor between two children who are facing each other.

Explain that you will say words with different vowel sounds and that you want the students to whack the spelling for that sound as fast as possible.

Use any of the word lists in this section to call out words.

Note: You can use this activity to review any of the spellings covered in this unit.

Two-Syllable Words with Vowel Digraphs

Focus: Two-Syllable Words	Teaching	Materials
Warm-Up	<p>Remind students that words can be broken into chunks called syllables. Each syllable has one vowel sound. For example, a word with one vowel sound, such as <i>cat</i>, is a one-syllable word; a word with two vowel sounds, such as <i>catnip</i>, has two syllables.</p> <p>Remind students that they have worked previously with reading two-syllable words in which both syllables had short vowel sounds, such as /a/, /e/, /i/, /o/, or /u/.</p> <p>Write the following words on the board and guide students in chunking them into syllables by pointing to the two vowel sounds and dividing between the consonants to chunk the words into syllables: <i>catfish</i>, <i>picnic</i>, <i>contest</i>, <i>suntan</i>. The two syllables in each word have short vowel sounds.</p>	board or chart paper
Introduction/ Teaching	<p>Tell students that today they will practice reading more two-syllable words, but these two-syllable words will include vowel digraphs.</p> <p>Write the words <i>base</i>, <i>rise</i>, and <i>home</i>. Ask the students to read each word and tell how many syllables it has. Each word has only one syllable because there is only one vowel sound in each word. Point out to students that these words are spelled with separated digraphs/magic e.</p> <p>Now write <i>basement</i>, <i>sunrise</i>, and <i>homeroom</i>. In each word, guide students in pointing to the vowel sounds and then chunking the words into syllables to read. For example, for <i>basement</i>, point out that the spelling ‘a_e’ represents one vowel sound—/ae/ as a separated digraph—and the other vowel sound is represented by ‘e’. The word can be chunked into two syllables as follows—<i>base ment</i>. Help students read the word.</p> <p>Continue in the same manner chunking and reading <i>sun rise</i> and <i>home room</i>.</p> <p>Now write the words <i>real</i>, <i>soy</i>, and <i>car</i>. Ask students to read each word and tell how many syllables it has. Each word has only one syllable because there is only one vowel sound in each word. Point out to students that these words are all spelled with vowel digraphs—‘ea’ > /ee/, ‘oy’ > /oi/, and ‘ar’ > /ar/. Note: ‘ar’ > /ar/ is also known as an r-controlled vowel, but it is technically a digraph, i.e., two letters represent one sound.</p> <p>Now write the words <i>sidebar</i>, <i>soybean</i>, and <i>carpet</i>. Guide students in recognizing the vowel digraphs so that they can chunk these words into syllables as follows and read them:</p> <p><i>side bar soy bean car pet</i></p>	board or chart paper
Guided and Independent Practice	Provide additional practice reading two-syllable words with digraphs in Word Lists, worksheets, practice sentences, and stories.	materials from this section of the <i>Assessment and Remediation Guide</i>

Section III-F

Fluency Assessment

Fluency Assessment

The second assessment for Section III that you may choose to give students is a Fluency Assessment.

You will work individually with each student and make a running record of the student's reading of the story, "The Fox and Cat." This is an opportunity to look for specific problems any students are having. In addition, you will take a simple, easily calculated measure for the student's fluency by seeing how long it takes the student to read the story. Allow each student approximately three minutes to read the story. If the student cannot read the story in three minutes, this is a clear indication that he or she is struggling and needs to work on fluency. **Note:** You may allow more time (up to six minutes) for a student to finish reading the story. Three minutes is a sufficient amount of time to conduct the assessment, but some students may be frustrated if they do not have the opportunity to finish reading the story.

Directions: Show the student the story. Ask the student to read the story to you. Start a stopwatch or jot down a start time when the students read the first word in the story. As the student reads, make a running record, using the following marking guidelines. Focus specifically on what a student's errors reveal about his or her knowledge of letter-sound correspondences, recording what the student says.

Note: The guidelines for making running records represent a simplified version of the process. If you have mastered a different process of taking running records, feel free to use the system you know.

Words read correctly – no mark needed

Omissions – draw a long dash above the word omitted

Insertions – write a carat at the point where the insertion was made

Word read incorrectly – write an "X" above the word and write the word the student says

Self-corrected errors – replace the original error mark with an "SC"

Teacher supplied word – write a "t" above the word (counts as an error); provide only if the child hesitates for five or more seconds or says he/she does not know the word

Fill out the table found on the page following the story to find students' fluency percentage. A score below the 50th percentile may be cause for concern; a score below the 25th percentile is definite cause for concern. Students struggling with fluency need more exposure to rereading stories, and may benefit from more previewing of vocabulary before reading as well.

The Fox and the Cat

Once a fox and a cat were drinking from a river. 11

The fox started bragging. 15

“I am a clever one,” said the fox. “There are lots of beasts out there 30
that would like to eat me, but they can’t catch me. I have lots of tricks 46
that help me escape from them. I can run. I can swim. I can dig a hole 63
and hide. Why, I must have a hundred clever tricks!” 73

“I have just one trick,” said the cat. “But it is a good one.” 87

“Just one?” said the fox. “That’s all? Well, that is too bad for you!” 101

Just then there was a loud sound. It was the sound of barking dogs. 115
A hunter was leading a pack of hunting dogs by the side of the river. 130

The cat scampered up a tree and hid in the leaves. 141

“This my plan,” said the cat. “What are you going to do?” 153

The fox started thinking which of his tricks he should use. Should 165
he run? Should he swim? Should he dig a hole and hide? He had such 180
a long list of tricks. It was hard to pick just one. But while he was 195
thinking, the hunter and his dogs were getting nearer and nearer. Soon 208
they spotted the fox and then it was too late. 218

The cat said, “It’s better to have one trick you can count on than a 233
hundred you can’t.” 236

Sample Lesson

Tricky Spellings

Focus: Tricky Spellings	Teaching	Materials
Warm-Up	Remind students that in multi-syllable words, they need to look at the words and try to break them apart into syllables and sound them out in chunks.	
Introduction/ Teaching	<p>Write a target word with the tricky spelling on the board but do not read the word aloud or ask students to say the word (e.g., <i>robot</i>).</p> <p>Write the words on the board divided into two syllables. (e.g., <i>rob ot</i> and <i>ro bot</i>).</p> <p>Tell students “I am going to say a sentence using this word. I want you to listen carefully and decide how to say this word.”</p> <p>Say a sentence (e.g., “The _____ can open doors and windows.”). Note: Do not write the sentence on the board—this is to be done orally as the emphasis is on decoding the target word, NOT decoding the words in the sentence.</p> <p>Point to the syllables of the first word and model how to sound out each syllable as it is divided (/r/ /o/ /b/ /o/ /t/).</p> <p>Then point to the syllables in the second word and model how to sound out each syllable as it is divided (/r/ /oe/ /b/ /o/ /t/).</p> <p>Ask students which pronunciation makes sense.</p> <p>Circle the correct word.</p>	board
Guided Practice	Repeat the above procedure: write the target word on the board and then write the two different ways it can be broken into syllables. Use the word in an oral sentence, pronouncing it two different ways based upon how the word is divided.	board
Suggested Independent Practice	Independent practice is accomplished for this skill as students read unknown words in unfamiliar text such as trade books.

Jo, the Eskimo, has a home not so far from the North Pole. Her home is an igloo. It is made from solid ice blocks. You may not think it, but her home is snug inside. Jo's dad keeps a fire going inside the ice home. There is a hole in the roof to let the smoke from the fire escape.

It is freezing at the North Pole. There are lots of frozen slabs of ice. The wind tosses things around as it swoops down from the Pole. If you go to visit Jo, take lots of thick clothing. Take an overcoat and a scarf. Take boots, too. If you don't, you could end up with frozen toes.

Last Friday, Mike and his dad visited the zoo in Ohio. Mike was excited at the idea of seeing the tigers, but as soon as he saw them, he became scared. (Mike is only five.) His dad tried to tell Mike that it would be fine, but Mike started weeping. He was scared of the tigers! At last, Mike's dad asked Mike if he'd like to see the hippos instead. Mike nodded and his sobs went away. He was quiet as he and his dad tried to find the hippos. Once they found them, Mike started smiling and chatting with his dad.

Last week, my sister and I argued about whether or not unicorns exist. I tried to tell my sister that unicorns are not real, but she did not listen to me. She said that they are just as real as humans. She said that she's seen one. If you ask me, I think she has confused a horse or a mule with a unicorn. We continued our dispute, but then I realized that arguing with her is useless. I will never be able to get her to understand that unicorns don't exist. Besides, it's sort of cute that she thinks unicorns are real.

5. caught
6. wait
7. boast
8. fraud
9. fail
10. hay
11. thaw
12. pilot
13. music
14. pupil

Mastery: 12/14 words correct

Below are the sound-spelling correspondences targeted for each word. If a student misses a word, have the student read the line(s) that contained the error. Then ask the student to point and say aloud the correct word for that line. The student's response will indicate whether the mistake was a careless error or if the student needs additional instruction in a specific letter-sound correspondence. Please pay attention to other errors as well, as they may indicate additional areas in need of remediation. For example, students who spell *beach* as *beetch*, or *thaw* as *taw*, may need help with digraphs.

1. 'oe' > /oe/
2. 'ea' > /ee/
3. 'aw' > /aw/
4. 'ue' > /ue/
5. 'augh' > /aw/
6. 'ai' > /ae/
7. 'oa' > /oe/
8. 'au' > /aw/

Fluency Assessment

Fluency Assessment

The second assessment that you may choose to give students is a Fluency Assessment.

You will work individually with each student and make a running record of the student's reading of the story, "The Slug Trainer." This is an opportunity to look for specific problems any students are having. In addition, you will take a simple, easily calculated measure for the student's fluency by seeing how long it takes the student to read the story. Allow each student approximately three minutes to read the story. If the student cannot read the story in three minutes, this is a clear indication that he or she is struggling and needs to work on fluency. **Note:** You may allow more time (up to six minutes) for a student to finish reading the story. Three minutes is a sufficient amount of time to conduct the assessment, but some students may be frustrated if they do not have the opportunity to finish reading the story.

Directions: Show the student the story. Ask the student to read the story to you. Start a stopwatch or jot down a start time when the students read the first word in the story. As the student reads, make a running record, using the following marking guidelines. Focus specifically on what a student's errors reveal about his or her knowledge of letter-sound correspondences, recording what the student says.

Note: The guidelines for making running records given represent a simplified version of the process. If you have mastered a different process of taking running records, feel free to use the system you know.

Words read correctly – no mark needed

Omissions – draw a long dash above the word omitted

Insertions – write a carat at the point where the insertion was made

Word read incorrectly – write an "X" above the word and write the word the student says

Self-corrected errors – replace the original error mark with an "SC"

Teacher supplied word – write a "t" above the word (counts as an error); provide only if the child hesitates for five or more seconds or says he/she does not know the word

Fill out the table to find students' fluency percentage. A score below the 50th percentile may be cause for concern; a score below the 25th percentile is definite cause for concern. Students struggling with fluency need more exposure to rereading stories, and may benefit from more previewing of vocabulary before reading as well.

The Slug Trainer

Sunday I went to a slug race.

My pal was Paul Gumfish. Paul is ten. He keeps slugs as pets. He has sixteen slugs. Paul is a slug trainer. He has been training slugs since he was nine. In August one of his slugs took the top prize in a slug race.

“Paul,” I said.

“Call me Coach,” Paul said.

“Okay, Coach. Which slug is the fastest?”

Paul pointed to his prize-winning slug.

“His name is King David,” Paul said.

“Why is he so fast?” I asked.

Paul said, “He just is. Want to hold him?”

“No thanks,” I said.

Next Paul took out a race track. It was a box with two plastic pipes sticking out of it. Paul said that the box is like a slug hotel. It’s a place for the slugs to hang out until it is time to race. When the gates of the box are opened, the slugs make their way down the pipes. They race side by side until they get to the finish line.

Paul set two slugs in the box. He sprayed water on them to keep them moist. Then he set some slug food at the end of the pipes.

Paul opened the gates and shouted, “Go, slugs, go!”

Then we watched and waited. After five minutes the two slugs had made their way out of the box and into the pipes.

“Is that King David?” I asked.

Paul nodded.

“He’s the fast one?” I asked.

“He starts by just creeping along but finishes fast,” Paul said.

The slugs inched their way down the track. They were just creeping along! I sat with Paul for fifteen minutes. At last King David made it to the end of the pipe.

“King David is the winner!” said Paul.

Katie and Molly and their mom took a cab from their hotel to the beach. At the beach, all three smeared sunblock all over their skin. It was hot so they got in the sea for a bit. Then they looked for seashells. After that, Katie and Molly played volleyball with some teenagers. Katie made some really sweet plays. (She's quite the athlete.) In fact, a small group formed to look at her play. After the game, Katie and Molly and their mom started to feel like they could use some food. They left the beach to find something to eat. What a good day!

Here's How to Play:

1. Assist your student in cutting out the cards on the next worksheet.
2. Shuffle the cards and lay them face down.
3. Each person should write their name on one of the bunny hop paths.
4. Draw a card. Read the word on the card. Write the word on the correct space on the bunny path.
5. Put the card back on the bottom of the stack.
6. First person to fill up the bunny path wins!

Assessment

Assessment

Provide students with the sheet labeled Section V Assessment that has 15 rows of words.

Tell students that for each row, you will say one word. Tell students to circle the word that they hear you say. Read each word provided below, calling out each number to indicate the row that students should point to and look at as you read the word.

- | | |
|-----------|---------------|
| 1. fern | 11. walnut |
| 2. burn | 12. cold |
| 3. first | 13. butterfly |
| 4. myth | 14. system |
| 5. kind | 15. false |
| 6. night | |
| 7. spy | |
| 8. snow | |
| 9. even | |
| 10. lucky | |

Below are the sound-spelling correspondences targeted for each word. If a student misses a word, have the student read the line(s) that contained the error. Then ask the student to point and say aloud the correct word for that line. The student's response will indicate whether the mistake was a careless error or if the student needs additional instruction in a specific letter-sound correspondence. Please pay attention to other errors as well, as they may indicate additional areas in need of remediation.

Section V-N

Fluency Assessment

Fluency Assessment

The second assessment for Section V that you may choose to give students is a Fluency Assessment.

You will work individually with each student and make a running record of the student's reading of the story, "The Visit." This is an opportunity to look for specific problems any students are having. In addition, you will take a simple, easily calculated measure for the student's fluency by seeing how long it takes the student to read the story. Allow each student approximately three minutes to read the story. If the student cannot read the story in three minutes, this is a clear indication that he or she is struggling and needs to work on fluency. **Note:** You may allow more time (up to six minutes) for a student to finish reading the story. Three minutes is a sufficient amount of time to conduct the assessment, but some students may be frustrated if they do not have the opportunity to finish reading the story.

Directions: Show the student the story. Ask the student to read the story to you. Start a stopwatch or jot down a start time when the student reads the first word in the story. As the student reads, make a running record, using the following marking guidelines. Focus specifically on what a student's errors reveal about his or her knowledge of letter-sound correspondences, recording what the student says.

Note: The guidelines for making running records given represent a simplified version of the process. If you have mastered a different process of taking running records, feel free to use the system you know.

Words read correctly – no mark needed

Omissions – draw a long dash above the word omitted

Insertions – write a carat at the point where the insertion was made

Word read incorrectly – write an "X" above the word and write the word the student says

Self-corrected errors – replace the original error mark with an "SC"

Teacher supplied word – write a "t" above the word (counts as an error); provide only if the child hesitates for five or more seconds or says he/she does not know the word

Fill out the table to find students fluency percentage. A score below the 50th percentile may be cause for concern; a score below the 25th percentile is definite cause for concern. Students struggling with fluency need more exposure to rereading stories, and may benefit from more previewing of vocabulary before reading as well.

The Visit

Kim was happy that she had found herself a summer job.	11
“Let’s go and visit Mom,” she said. “She will be finished teaching by the time we get there.”	27 29
Mrs. Gunter was a math teacher. She taught at a college in lower Manhattan.	43
Kim held up a hand to hail a cab.	52
A yellow cab screeched to a stop on the side of the street. Kurt and Kim hopped in.	69 70
“Where to?” asked the driver.	75
Kim told him the address.	80
The cab went shooting off. Wind came rushing in the windows as the cab sped past stores on both sides.	95 100
Kurt hung on tight. It was a crazy ride. The cab man was weaving in and out of traffic. Kurt thought they might crash. Part of him was frightened. But part of him found driving at that speed exciting. It was like riding in a race car.	118 133 147
“Do you have a license to drive?” Kurt called to the driver.	159
“Yes. All cab drivers must have a license,” the driver said.	170
“And they teach you to drive like this?”	178
“No, no,” said the driver. “It takes years and years of driving to become an expert like me!”	194 196
They made it safely. Kim paid the driver. She and Kurt went in to see their mom.	213
Mrs. Gunter gave Kim a big hug. Kurt snuck in between them so he could be part of the hug, too. Then Kim told her mom how they had spent the day.	229 245
Kim listed the places they had visited. She explained what had happened with Tom and Beth, with Alberto at the Corner Market, with Dwight, the Man of Light, with Hester the Florist, and, at last, with Mr. Fremont. She told her mom how she had used math to help her get the job at the grocery.	258 273 289 301

By the end of the story, Mrs. Gunter was beaming. “You see,” she said. “I told you math would help you out one day. You thought I was crazy.”	318 330
“You were right,” said Kim. “Mr. Fremont was really impressed that I could add up the tally without the cash register and also add in the sales tax.”	344 358
“Good for you!” said her mom. “I’m so proud of you!”	369
“I never dreamed I would have a job in a grocery,” added Kim, “but I think it’s going to be a good job for me.”	386 394
“It may not be the job of your dreams,” said her mom. “But it’s a job. The next job you get can be better. And the next one can be even better. If you study hard in college, you will have a chance to get the job of your dreams some day. Until then, just do a good job and save as much of your paycheck as you can.”	412 431 449 463
“I will,” said Kim.	467
“Let’s do something fun!” said Kurt.	473
“I know!” said their mom. “Let’s celebrate Kim’s getting a job by getting some subs and snacks and going down to Battery Park for a picnic. Are you two hungry for dinner?”	487 504 505
“You bet!” said Kurt.	509
“This is crazy!” Kim said. “Mom, all day, Kurt ate and ate. Each time I got him a snack, I said, that’s the end of that. But he was still hungry.”	527 540
“Well, he’s a strong, growing child,” said Mrs. Gunter. “And he was busy all day.”	555
“That’s right!” said Kurt.	559
They went to a sub shop nearby. Mrs. Gunter ordered a sub for each of them, plus some snacks and drinks.	576 580
Then Mrs. Gunter hailed a cab. The three of them got in. The cab took them down the West Side Highway. It dropped them off in Battery Park, on the south end of Manhattan.	596 612 614

Last month, my older brother won second place in a hot dog eating contest. To win, he had to eat the most hot dogs. Well, my brother ate lots and lots of hot dogs—most of the people competing found it impossible to eat as many. At the closing ceremony, my brother was given a ton of money (one thousand bucks) and a trophy of a golden hot dog. My brother slipped the money in his pocket and smiled modestly as people took his snapshot. It was a fine moment for my brother.

Spelling Spoilers Story

Read “The Spelling Spoilers” on the next pages aloud to the students. The story describes a group of bad guys called “The Spelling Spoilers” who are trying to ruin the students’ spelling by convincing them to spell schwa with the letter ‘u’.

Be sure to read the story to yourself before reading it to the class since there are places where you will need to fill in your name, the name of your school, and the name of your community.

You will also need to write on a chalkboard (or white board) as you present the read-aloud.

Use your best “TV villain voice” to make the Head Spelling Spoiler sound as villainous as possible. His laughter is meant to sound like the schwa sound: /u/ . . . /u/ . . . /u/! If you find that hard to say, you can have him laugh like this: huh . . . huh . . . huh!

As you present the read-aloud, be sure to point out to students the pictures printed after the story of the Spelling Spoilers that follows.

The Spelling Spoilers

Deep in his underground lair, the Head Spelling Spoiler spoke to the other Spelling Spoilers.

“Fellow Spoilers, our plot to ruin spelling in the United States is going well!”

He paused to let out a long cackle of strange-sounding laughter: “/u/ . . .

/u/ . . . /u/!”

[Point to the first picture on the page that follows the story.]

The Head Spelling Spoiler went on: “There are lots of children out there who can’t spell well. And there are lots of adults who can’t spell well either. And, best of all, there are adults who are telling the children that English spelling makes no sense. All of these things show that our master plan to ruin spelling in this country is working!”

Then he cackled again: “/u/ . . . /u/ . . . /u/!”

All of the other Spoilers began whispering happily among themselves.

Then the Head Spoiler lowered his voice and began speaking again.

“But I am afraid the news is not all good.”

[Point to the second picture on the first line of the page that follows the story.]

The other Spoilers fell silent.

“I have received an alarming report from **[insert name of your town]**. It seems that the students at **[insert name of your school]** are learning what they need to know to become very good spellers.”

The Spoilers fidgeted in their seats nervously.

“I am especially concerned about Mr./Ms. **[insert your name]**’s class. I am told that the students in that class know five ways to spell the /oe/ sound.”

The Spoilers moaned.

“I am told that the children in Mr./Ms. **[insert your name]**’s class know four ways to spell the /ae/ sound.”

The Spoilers groaned.

“And, worst of all, I am told that the students in Mr./Ms. **[insert your name]**’s class know seven ways to spell the /ee/ sound.”

The Spoilers gasped.

“No! It can’t be true!” cried one of the Spoilers.

The Head Spelling Spoiler spoke again: “Fellow Spoilers, I don’t have to tell you that the situation is serious. If those children can spell sounds like /ae/, /oe/, and /ee/, they are on the verge of becoming good spellers. There’s only one thing that can stop them from becoming really good spellers. And that is our old friend, schwa.”

[Point to schwa picture, the third picture on the page that follows the story.]

Ah, yes, schwa! The spoilers all smiled and nodded. They knew that schwa had been messing up children's spelling for many years. Schwa caused more spelling problems than almost anything else. It was a Spelling Spoiler's best friend.

"You Spoilers all know that schwa is a sound that sounds a lot like /u/. But it is not necessarily spelled with the letter 'u'. And that's just what we need to ruin the children's spelling! /u/ . . . /u/ . . . /u/!"

"Now, the next few weeks are going to be very important. I want all of you to make yourselves invisible. Then I want you to go out to Mr./Ms. **[insert your name]**'s classroom. Whenever the students are writing, and they come to a word that has the schwa sound in it, I want you to be there, whispering in their ears, 'Spell it with a 'u'! Spell it with a 'u'!"

All the Spoilers started to chant: "Spell it with a 'u'! Spell it with a 'u'!"

"That's the spirit!" said the Head Spoiler. "If we can get them to spell the schwa sound with a 'u', they will make hundreds of mistakes."

He cackled: "/u/ . . . /u/ . . . /u/!"

[Point to the fourth picture on the page that follows the story.]

"If we can get them to spell the schwa sound with a 'u', they will write the word *about* like this."

 **[Write *about* on the board.]**

"Whereas we know it is really spelled like this."

 **[Cross out *about* and write *about*.]**

"If we can get them to spell the schwa sound with a 'u', they will write *reporter* like this."

 [Write *ruporter* on the board.]

“Or maybe like this.”

 [Write *riporter* on the board.]

“Whereas we know it is really spelled like this.”

 [Cross out *ruporter* and *riporter*; write *reporter* on the board.]

“And, best of all, they will write America like this.”

 [Write *Umericu* on the board.]

“Whereas we know it is really spelled like this.”

 [Cross out *Umericu* and write *America* on the board.]

“Ah, how I love to see the word America spelled with two u’s!”

He cackled his loudest cackle yet: “/u/ . . . /u/ . . . /u/!”

“So, my little Spoilers, you know what to do! Get out there and whisper in their ears! Convince them to spell every schwa sound with a ‘u’! Turn their spelling into rubbish! Spoil their spelling! /u/ . . . /u/ . . . /u/!”

[Point to the last picture on the page that follows the story.]

Review of Schwa (/ə/) and the /u/ Sound

Ask students to take out the worksheet that follows. Tell students it is time to try to beat the Spelling Spoilers by spelling the schwa and the /u/ sounds they have learned in this unit correctly.

Write *about* on the board and read it aloud. Point out that even though the first sound in *about* is /ə/, the first letter in the printed word is 'a'.

Have students copy about into the far left column on the worksheet labeled "Copy." They should say the sound of each letter as they copy the word.

Erase the word from the board.

Have students fold the worksheet along the dotted line so that *about* is facing the desk.

Have students write *about* from memory in the middle column on the worksheet labeled "Spell." They should say the sound of each letter as they write the word.

Tell students to unfold the worksheet and compare the word they just wrote from memory with the word they copied earlier.

If any of the students spelled the word incorrectly, have them erase the incorrect spelling and print the correct spelling.

Tell students to make a mark on the worksheet indicating whether they beat the Spelling Spoilers or not.

Repeat these steps with the remaining words in the following box.

Note: The letter or letters in each word that stand for the schwa or the /u/ sound are bolded.

I know a lady who happens to have ten babies. The lady spends all day feeding them, changing them, carrying them around, and washing them. When she's changing her babies, the lady has to watch that they don't fall off the changing table. When she's feeding her babies, the lady has to watch that they don't swallow something that they should not. It's a nonstop job. The crazy part is that the lady wants another ten babies! Spelling Alternatives and Tricky Spellings Associated with /ə/ and /u/ Assessment

Assessment

Provide students with the sheet labeled Section VI Assessment that has 10 rows of words (20 total).

Tell students that for each row, you will say one word. Tell students to circle the word that they hear you say. Read each word provided below, calling out each number to indicate the row that students should point to and look at as you read the word.

- | | | | |
|-------------|------------|---------------|--------------|
| 1. across | 6. apple | 11. traction | 16. hideous |
| 2. courtesy | 7. nation | 12. above | 17. petal |

| 4. decide | 9. couple | 14. wonderful | 19. cheerful |
| 5. shove | 10. cousin | 15. love | 20. animal |

Below are the sound-spelling correspondences targeted for each word. If a student misses a word, have the student read the line(s) that contained the error. Then ask the student to point and say aloud the correct word for that line. The student's response will indicate whether the mistake was a careless error or if the student needs additional instruction in a specific letter-sound correspondence. Please pay attention to other errors as well, as they may indicate additional areas in need of remediation. Any student who scores less than 16 out of 20 correct needs further remediation.

Section VI-D

Fluency Assessment

Fluency Assessment

The second assessment for Section VI that you may choose to give students is a Fluency Assessment.

You will work individually with each student and make a running record of the student's reading of the story, "The Young Mouse." This is an opportunity to look for specific problems any students are having. In addition, you will take a simple, easily calculated measure for the student's fluency by seeing how long it takes the student to read the story. Allow each student approximately ten minutes to read the story. If the student cannot read the story in ten minutes, this is a clear indication that he or she is struggling and needs to work on fluency.

Directions: Show the student the story. Ask the student to read the story to you. Start a stopwatch or jot down a start time when the student reads the first word in the story. As the student reads, make a running record, using the following marking guidelines. Focus specifically on what a student's errors reveal about his or her knowledge of letter-sound correspondences, recording what the student says.

Note: The guidelines for making running records given represent a simplified version of the process. If you have mastered a different process of taking running records, feel free to use the system you know.

Words read correctly – no mark needed

Omissions – draw a long dash above the word omitted

Insertions – write a carat at the point where the insertion was made

Word read incorrectly – write an "X" above the word and write the word the student says

Self-corrected errors – replace the original error mark with an "SC"

Teacher supplied word – write a "t" above the word (counts as an error); provide only if the child hesitates for five or more seconds or says he/she does not know the word

Fill out the table to find students' fluency percentage. A score below the 50th percentile may be cause for concern; a score below the 25th percentile is definite cause for concern. Students struggling with fluency need more exposure to rereading stories, and may benefit from more previewing of vocabulary before reading as well.

The Young Mouse

Once upon a time there was a young mouse who had never left his mother's side. One day the young mouse went outside for a walk to explore. But it was not long until he came running back to his mother.

“Mother! Mother!” said the young mouse. “What a scare I have had! I was walking along when I saw two strange animals. One of them looked a lot like me. She had paws and a tail. She looked soft, and kind, and graceful.

But the other one was a scary monster! You should have seen him! He had just two legs and scratched at the ground with his claws. He kept beating his arms. He was ugly, too. He had no fur, just feathers, and he had big red flaps hanging from his head and neck. But what scared me the most was the awful sound he made. It sounded like cock-a-doodle-doo!”

The young mouse went on. “I wanted to say hello to the nice animal 170
that looked like me. She was so lovely, and she looked so good and 184
gentle. She had thick, glossy hair and a modest face. As she looked at 198
me, she waved her fine, long tail and smiled. I think she was about 213
to speak to me when the other animal let out his awful scream. I was 227
so scared that I ran for my life. I didn’t even have time to smile back 243
at the nice animal. It is such a shame. I would have liked to meet 258
that lovely animal.” 261

“My son,” said the mother, “the animal that scared you was a rooster. 274
He may look and sound scary, but he would never harm you. The 287
other animal that you saw was a cat. She may look good and gentle, 301
but she is no pal of ours. She would gladly eat you and your mice 316
pals. In fact, she would have eaten you if you had not run away. So 331
be thankful, my son, that you escaped with your life. Stay close to 344
me and remember that things are not always what they seem to be.” 357

Section VII-G

Spelling Alternatives 'wa' and 'a' > /o/ Lessons

'wa' > /o/

Ask students to turn to the worksheet that follows.

Tell students that they are going to learn about a new spelling alternative. Explain that you are going to read a story to them as they follow along with the pictures, much as they did in the lesson where they learned about the schwa sound and heard the story about the Spelling Spoilers.

Ask students to point to the first picture on the page. Tell students that this is a picture of Watkins Llama, and that he is going to tell them about a very special sound for the spelling 'a'.

As students point to the picture, read the following: "Hi, Third Graders, my name is Watkins Llama. I like to wear green pajamas. I am a very special llama because my name will help you remember the spelling of a special sound: /o/. (Ask students to point to the next picture beside Watkins.) My friend, Wanda the Swan, will help you remember this sound as well. (Ask students to point to the picture below Watkins.) Wanda and I both like to paint with watercolors. (Ask students to point to the picture below Wanda.) Sometimes we like to pretend we can take a magic wand and make waffles appear for breakfast." (Ask students to point to the bottom picture.)

Write the following words on the board: *Watkins, Wanda, water, watercolor, wand, and waffle.*

Watkins Llama & Wanda Swan

'a' > /o/

Tell students that sometimes even when the letter 'w' is not part of the spelling of a word, other letter combinations may represent the /w/ sound and influence the sound of the spelling 'a'.

Write 'qu' on the board and ask students what sound this spelling represents (/qu/). Now write the following words on the board: *squash*, *squat*, and *squad*. Have students read the words.

Tell students that they will learn some words in which the spelling 'a' represents the sound /o/.

"Hi, Third Graders, Watkins Llama here again. I am back to tell you a little more about words in which the spelling 'a' can stand for the /o/ sound. Previously, you learned that the letter 'a' can stand for the /o/ sound when it follows the /w/ sound. Now you are going to learn some more words in which 'a' stands for /o/, even when there is no /w/ sound.

Listen to the word *llama*. Do you hear the /o/ sound in *llama*? You can hear it in two places. Guess what—the /o/ is spelled with the letter 'a' in both spots. Listen again: I like to wear green *pajamas*. Do you hear the /o/ sound in the middle of *pajamas*? It is spelled with the letter 'a'. Do you remember my friend, *Wanda the Swan*? She likes to act in plays and *dramas*. Do you hear the /o/ sound in *drama*? Just like the 'o' sound in *llama*, the /o/ sound in *drama* is spelled with the letter 'a' in both spots."

Write the following words on the board: *father*, *grandma*, *grandpa*, *lava*, *pajamas*, *drama*, and, *llama*.

Read the words aloud as a class.

Mastery: 15/18 correct

(Alternate Administration: Ask each individual student to read all of the words aloud in rows 1–18. Mastery: 58/72 words correct)

Below are the sound-spelling correspondences targeted for each word. If a student misses a word, have the student read the line(s) that contained the error. Then ask the student to point and say aloud the correct word for that line. The student's response will indicate whether the mistake was a careless error or if the student needs additional instruction in a specific letter-sound correspondence. Please pay attention to other errors as well, as they may indicate additional areas in need of remediation

Section VII-I

Fluency Assessment

Fluency Assessment

The second assessment for Section VII that you may choose to give students is a Fluency Assessment. Please note that the Unit VII assessment is identical to the Unit VI assessment.

You will work individually with each student and make a running record of the student's reading of the story, "The Young Mouse." This is an opportunity to look for specific problems any students are having. In addition, you will take a simple, easily calculated measure for the student's fluency by seeing how long it takes the student to read the story. Allow each student approximately ten minutes to read the story. If the student cannot read the story in ten minutes, this is a clear indication that he or she is struggling and needs to work on fluency.

Show the student the story. Ask the student to read the story to you. Start a stopwatch or jot down a start time when the students read the first word in the story. As the student reads, make a running record, using the following marking guidelines. Focus specifically on what a student's errors reveal about his or her knowledge of letter-sound correspondences, recording what the student says.

Note: The guidelines for making running records given represent a simplified version of the process. If you have mastered a different process of taking running records, feel free to use the system you know.

Words read correctly – no mark needed

Omissions – draw a long dash above the word omitted

Insertions – write a carat at the point where the insertion was made

Word read incorrectly – write an "X" above the word and write the word the student says

Self-corrected errors – replace the original error mark with an "SC"

Teacher supplied word – write a "t" above the word (counts as an error); provide only if the child hesitates for five or more seconds or says he/she does not know the word

Fill out the table to find students' fluency percentage. A score below the 50th percentile may be cause for concern; a score below the 25th percentile is definite cause for concern. Students struggling with fluency need more exposure to rereading stories, and may benefit from more previewing of vocabulary before reading as well.

The Young Mouse

Once upon a time there was a young mouse who had never left his	14
mother's side. One day the young mouse went outside for a walk	26
to explore. But it was not long until he came running back to his	40
mother.	41
"Mother! Mother!" said the young mouse. "What a scare I have had!	53
I was walking along when I saw two strange animals. One of them	66
looked a lot like me. She had paws and a tail. She looked soft, and	81
kind, and graceful.	84
But the other one was a scary monster! You should have seen him!	97
He had just two legs and scratched at the ground with his claws. He	111
kept beating his arms. He was ugly, too. He had no fur, just feathers,	125
and he had nasty red blobs hanging from his head and neck. But	138
what scared me the most was the awful sound he made. It sounded	151
like cock-a-doodle-doo!"	156

The young mouse went on. "I wanted to say hello to the nice animal 170
that looked like me. She was so lovely, and she looked so good and 184
gentle. She had thick, glossy hair and a modest face. As she looked at 198
me, she waved her fine, long tail and smiled. I think she was about 212
to speak to me when the other animal let out his awful scream. I was 227
so scared that I ran for my life. I didn't even have time to smile back 243
at the nice animal. It is such a shame. I would have liked to meet 258
that lovely animal." 261

"My son," said the mother, "the animal that scared you was a rooster. 274
He may look and sound scary, but he would never harm you. The 287
other animal that you saw was a cat. She may look good and gentle, 301
but she is no pal of ours. She would gladly eat you and your mice 316
pals. In fact, she would have eaten you if you had not run away. So 331
be thankful, my love, that you escaped with your life. Stay close to 344
me and remember that things are not always what they seem to be." 357

Acknowledgments

These materials are the result of the work, advice, and encouragement of numerous individuals over many years. Some of those singled out here already know the depth of our gratitude; others may be surprised to find themselves thanked publicly for help they gave quietly and generously for the sake of the enterprise alone. To helpers named and unnamed we are deeply grateful.

Contributors to Earlier Versions of These Materials

Susan B. Albaugh, Kazuko Ashizawa, Kim Berrall, Ang Blanchette, Nancy Braier, Maggie Buchanan, Paula Coyner, Kathryn M. Cummings, Michelle De Groot, Michael Donegan, Diana Espinal, Mary E. Forbes, Michael L. Ford, Sue Fulton, Carolyn Gosse, Dorrit Green, Liza Greene, Ted Hirsch, Danielle Knecht, James K. Lee, Matt Leech, Diane Henry Leipzig, Robin Luecke, Martha G. Mack, Liana Mahoney, Isabel McLean, Steve Morrison, Juliane K. Munson, Elizabeth B. Rasmussen, Ellen Sadler, Rachael L. Shaw, Sivan B. Sherman, Diane Auger Smith, Laura Tortorelli, Khara Turnbull, Miriam E. Vidaver, Michelle L. Warner, Catherine S. Whittington, Jeannette A. Williams.

We would like to extend special recognition to Program Directors Matthew Davis and Souzanne Wright, who were instrumental in the early development of this program.

Schools

We are truly grateful to the teachers, students, and administrators of the following schools for their willingness to field-test these materials and for their invaluable advice: Capitol View Elementary, Challenge Foundation Academy (IN), Community Academy Public Charter School, Lake Lure Classical Academy, Lepanto Elementary School, New Holland Core Knowledge Academy, Paramount School of Excellence, Pioneer Challenge Foundation Academy, PS 26R (the Carteret School), PS 30X (Wilton School), PS 50X (Clara Barton School), PS 96Q, PS 102X (Joseph O. Loretan), PS 104Q (the Bays Water), PS 214K (Michael Friedsam), PS 223Q (Lyndon B. Johnson School), PS 308K (Clara Cardwell), PS 333Q (Goldie Maple Academy), Sequoyah Elementary School, South Shore Charter Public School, Spartanburg Charter School, Steed Elementary School, Thomas Jefferson Classical Academy, Three Oaks Elementary, West Manor Elementary.

And a special thanks to the CKLA Pilot Coordinators, Anita Henderson, Yasmin Lugo-Hernandez, and Susan Smith, whose suggestions and day-to-day support to teachers using these materials in their classrooms were critical.
