

Summary 7.03

Some attributes help to name shapes and some do not. You can talk about the sides and vertices to describe a shape.

Practice 7.03

Choose from these Centers.

**Counting

Making 10

Practice 7.03

Name _____

- 1** Circle all the shapes that have 3 sides and 3 vertices.
Then circle the name of the shape.

circle

rectangle

triangle

square

- 2** Explain how you know the name of the shapes in Problem 1. **Sample response shown.**

I know they are triangles because they have 3 straight sides and 3 vertices.

- 3** Cross out the shapes that are *not* circles.

Spiral Review

For Problems 4–13, find the sum or difference.

4 $2 + 4 = 6$

5 $10 - 4 = 6$

6 $4 + 4 = 8$

7 $8 - 4 = 4$

8 $6 - 4 = 2$

9 $1 + 4 = 5$

10 $7 - 4 = 3$

11 $3 + 4 = 7$

12 $5 + 4 = 9$

13 $9 - 4 = 5$

For Problems 14–15, find the sum. Sample work shown.

Show your thinking.

14 $2 + 12 = 14$

$$\begin{aligned} 2 + 2 &= 4 \\ 10 + 4 &= 14 \end{aligned}$$

15 $14 + 4 = 18$

$$\begin{aligned} 4 + 4 &= 8 \\ 10 + 8 &= 18 \end{aligned}$$
