

How Rocks Form

Goal: Show how **sedimentary rock** is formed by filling in the initial material and process.

Rock materials

- rock
- sediment
- magma

Processes

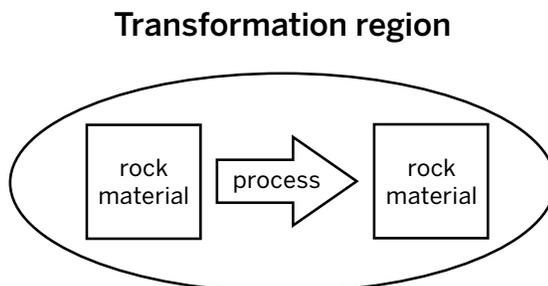

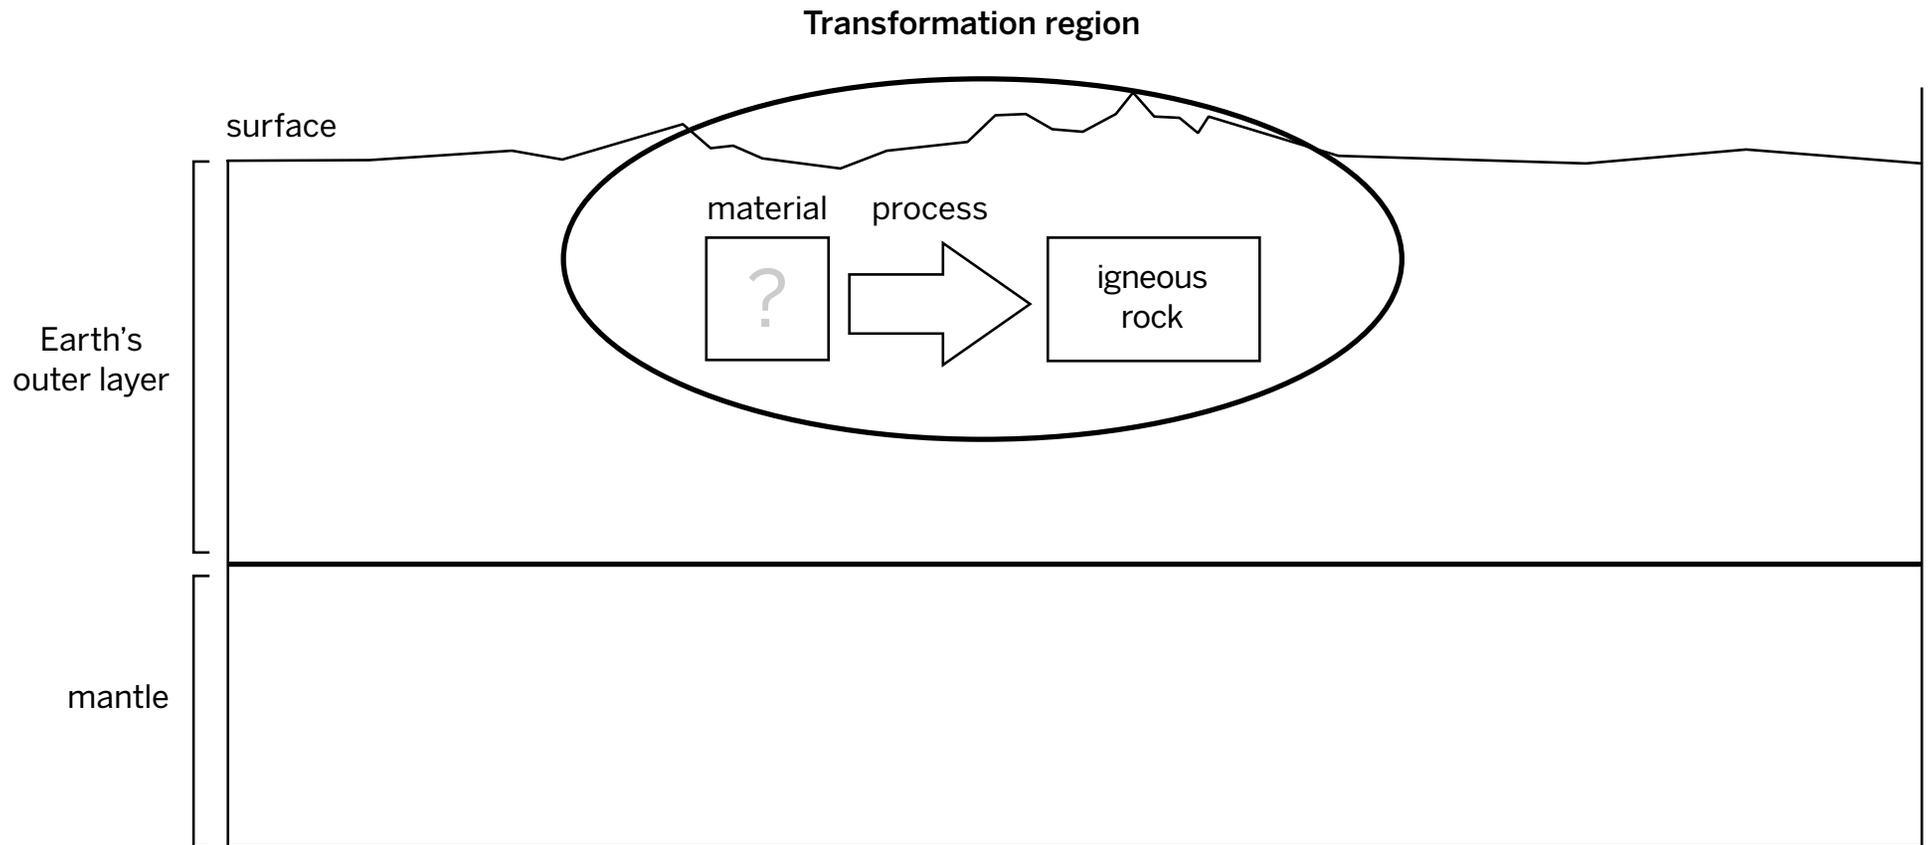

- cooling
- compaction and cementation
- weathering
- melting

Movement of rock materials

- magma rising →
- erosion →

How Rocks Form (continued)

Goal: Show how **igneous rock** is formed by filling in the initial material and process.

Rock materials

- rock
- sediment
- magma

Processes

- cooling
- compaction and cementation
- weathering
- melting

Movement of rock materials

- magma rising →
- erosion →
