

Capture Squares

Multiply With 2, 5, and 10

Let's multiply numbers (2, 5, and 10).

Pairs 

You'll need . . .

2 crayons
or colored
pencils

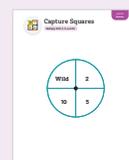

number
cube

paper clip

Gameboard

Spinner

How to Play

- 1 Roll the number cube and spin the Spinner. Determine the product.
- 2 Draw 1 line connecting any 2 dots around the product. If you cannot draw a line, roll the number cube and spin again.
- 3 If you complete a square, shade the box with your color.
- 4 Take turns.

How to Win

- The first player to shade 3 boxes wins.
